**APPLICATION GUIDANCE:**

**REASONS FOR DISPOSITION:** The Biotechnology Program is currently operating under the 1986 Statement of Interim which requires the review of certain types of genetically modified, viable microorganisms prior to importation or manufacture for commercial purposes in the U.S. Under Section 5 of TSCA, the review process associated with Biotech submissions are subjected to reviews that are similar in purpose but requirements are different from those to which chemical substances are subjected. (TSCA Section 5 New Chemical Files are scheduled separately as EPA Series No. 261.) The review cycle associated with

**EPA SERIES NO. 296**

the Biotech Premanufacture Notice is totally different from the PMN submitted for the review of a chemical prior to manufacture.

The Biotech PMN and the Section 5 PMN are governed by the same legal and administrative requirements. The final disposition for the Section 5 PMN is permanent, therefore permanent disposition for BioTech documentation is also required.

**AGENCY-WIDE GUIDANCE:** The official records are maintained by CBIC, NCIC and the program office.

The collection of records which support program decisions regarding the approval and disapproval of genetically modified, viable microorganisms prior to their importation or manufacture for commercial purposes are governed by this schedule. The records associated with the Biotechnology rulemaking docket are to be dispositioned under EPA 149 - Regulations, Standards, and Guidelines and EPA 150 - Rulemaking Dockets. Paper records which are electronically imaged must be dispositioned in accordance with EPA 270 - OPPT Image Processing System.

Microform copies are to be produced in accordance with standards in 36 CFR 1230.10 and 1230.20. If records are not filmed, use disposition a for paper records.

**PROGRAM OFFICE GUIDANCE/DESCRIPTIVE INFORMATION:** Due to the nature of the Section 5 Biotech process, the decision documents vary. Based on routine processing, file breaks could occur up to 60 days following each document's mandated review period or other Agency decision.

The review periods are as follows:

PMN	90 days
MCAN*	90 days
NOC	date of receipt
Bona fide	30 days
TMEA	45 days
LVE	21 days
SNUN	90 days
Tiered exemptions	45 days
TERA**	60 days

Agency regulatory decisions include:

- Revocation of 5(e) order
- Focus Drop

\*MCAN - Microbial Commercial Activity Notice - This submission is proposed for use for microorganisms in lieu of PMN following promulgation of the final rule.

\*\*TERA, TSCA Experimental Release Application - This is a completely new type of submission which is specific for biotechnology products which are intended to be tested in the environment.

All records, regardless of media, claimed as confidential business information (CBI) under Section 14 of the Toxic Substances Control Act (TSCA) must be handled in accordance with the 1993 edition of TSCA Confidential Business Information Security Manual.

At close out of the file, all records held by all offices should be retired at the same time. However, the program office may retain a closed file should it be determined that it would be needed for additional information or continuity regarding a related matter. All reference copies can be destroyed when no longer needed to support program operations.
