Description:

The National Compliance Data Base (NCDB) is a reporting application for managers at headquarters. The system tracks regional compliance and enforcement activity and manages the pesticides and toxic substances compliance and enforcement program at a national level. NCDB provides reporting, retrieval, and analytical capabilities that support all members of the user community. There are three categories of reports: (1) reporting and enforcement and compliance assurance priorities (RECAP) reports, (2) standard reports, and (3) ad hoc reports.

NCDB is the national repository of the 10 regional and headquarters FIFRA/TSCA Tracking System (FFTS) data and contains approximately 65% of the FFTS data elements. Regional FFTS data entry personnel send their data to headquarters once a month to rebuild the NCDB.

Excludes: The FFTS which is scheduled as EPA 421.
