Agency-wide Guidance:

The program may keep the records in paper or electronic format. Non-record copies can be disposed of when no longer needed. OSWER HQ (via the reporting center) is responsible for the original, submitted RMPs. But, the implementing agencies (which may include state or local agencies with appropriate delegation) will manage the records related to their implementation of the RMP program. Records related to state authorizations are covered in EPA 204 - State Program Authorization/Approval Files.

If no state or local agency is granted delegation, the appropriate EPA Region will be the implementing agency for that state. Records related to the oversight of the state program are covered in EPA 203 - State Oversight Files.

Compliance Files are scheduled as EPA 211 and Enforcement Action Files as EPA 207.

RMP data is entered into the System for Risk Management Plans (SRMP), a suite of electronic systems covered by EPA 047.

As required by 36 CFR 1228.58, records with special restrictions such as confidential business information (CBI) or those exempted from disclosure by statute such as the Privacy Act, or Chemical Safety Information, Site Security and Fuels Regulatory Relief Act of 1999 (CSISSFRRA), must be shredded or otherwise definitively destroyed with witnessed disposal for records destroyed by contractors.
