Title: Special Studies

Program: All Programs

Applicability: Agency-wide

Function: 108 - Environmental Management

NARA Disposal Authority:

This schedule authorizes the disposition of the record copy in any media (media neutral). Records designated for permanent retention must be transferred to the National Archives in accordance with NARA standards at the time of transfer.

- Pending

Description:

Contains supporting files relating to the development of special studies and surveys produced in house by individuals, committees or task forces. Examples of such studies include topics such as environmental levels of toxic substances, coastal zone management, or economic benefits and impacts of pesticides.

Excludes: Final studies and surveys (EPA 258) and management studies (EPA 105).

Disposition Instructions:

Item a: Record copy

- Disposable
- Close upon completion of study. Destroy 7 years after file closure.

Guidance:

Final studies and surveys are scheduled as EPA 258.

If copies of studies are incorporated into other series such as Superfund site files, that disposition takes

precedence. Reference (nonrecord) and information copies may be destroyed when no longer needed.

Contract records are covered in EPA 020 (Superfund site-specific), EPA 055, EPA 202, and EPA 258. Grants and other program agreements are found in EPA 001 (Superfund site-specific) and EPA 003 (all programs except Superfund site-specific). Management studies are scheduled as EPA 105 and pilot projects as EPA 099.

If tracking systems are used to manage the studies, they must be retained for the length of time specified in this schedule. However, databases specifically established as part of a special study need to be scheduled separately and are not covered by this schedule.

Reasons for Disposition:

The disposition instructions have been rewritten as media neutral to allow for maintaining the record copy in EPA's electronic recordkeeping system. The retention has not changed.

The following items were deleted 08/14/2006:

EPA Records Schedule 082

Status: Development, 08/15/2006

Title: Response to Audit, Evaluation, and Investigation

Program: All Programs

Applicability: Agency-wide

Function: 301-091 - Corrective Action

NARA Disposal Authority:

This schedule authorizes the disposition of the record copy in any media (media neutral). Records designated for permanent retention must be transferred to the National Archives in accordance with NARA standards at the time of transfer.

- Pending

Description:

Includes records used to document and track the Agency's response to audit, evaluation, and investigation processes conducted internally (e.g., by Inspector General (IG)), or externally (e.g., by General Accounting Office (GAO)). Audits and evaluations may be initiated by EPA, by an outside agency with oversight over EPA, or it may be requested by Congress. Records relating to these special projects include controlled and follow-through correspondence, conference materials, issue and position papers, responses, work plans, studies, corrective actions, tracking/milestones, and related records such as Corrective Action System (CATS) printouts.

Records related particularly to Federal Managers Financial Integrity Act (FMFIA) include: documentation of internal control objectives and techniques, work plans, status reports on conduct of internal control reviews, correction of reported material weaknesses, and related materials such as the Corrective Action Tracking system (CATS), Event Cycle Documentation, Management Control Plan, Audit Follow-up, Annual Assurance Letter, and internal control review reports and supporting documentation.

Disposition Instructions:

Item a: Record copy

- Disposable
- Close inactive records when corrective action is complete. Destroy 10 years after file closure.

Guidance:

This series focuses on the specific response or corrective actions taken by the office subject to the evaluation function, not the audit itself. The record copy of the audit or evaluation will reside with the organization performing the audit (e.g., IG, GAO, Congress).

Program offices are responsible for maintaining and dispositioning the record copy of FMFIA documentation according to the disposition instructions. Internal control coordinators are not responsible for keeping the documentation, only a certification that it exists. All other copies may be destroyed when no longer needed.

Records of Agency directives and guidance created by Office of Management and Budget (OMB) and other offices relating to responses to evaluation/audit should be maintained in the responding office. Copies provided to internal control coordinators and audit liaisons should be kept as reference material and can be discarded when superseded.

Audit resolution records maintained in OARM are scheduled as EPA 658. Contract Reviews and Audits are scheduled as EPA 184.

As required by 36 CFR 1228.58, records with special restrictions such as confidential business information (CBI) or those exempted from disclosure by statute such as the Privacy Act must be shredded or otherwise definitively destroyed with witnessed disposal for records destroyed by contractors.

Reasons for Disposition:

The disposition instructions have been rewritten as media neutral to allow for maintaining the record copy in EPA's electronic recordkeeping system. The retention is unchanged.
