Information on the confidential business information (CBI) notices submitted to EPA are kept in a logbook. This information includes the CBI document control number, the name of the chemical exported, the country of import, and the date the export notification letter was sent to the foreign government.

Original CBI export notices are maintained in the CBI center and are tracked using the Confidential Business Information Tracking System (CBITS). The CBI center is responsible for maintaining the official CBI export notice records for the time period specified above. Copies of incoming and outgoing CBI export notices that are maintained in the program office can be destroyed when no longer needed in accordance with requirements found in 36 CFR 1228.58.

Official non-confidential export notices are maintained by the program office and must be retained in accordance with the disposition requirements in item a.

Both confidential and non-confidential incoming and outgoing notices are also tracked for inquiries using the TSCA 12(b) Export Notification Tracking System (ENTS) (See EPA 090 - Administrative Support Data Bases). ENTS automatically generates letters to import countries informing them of the export chemical.

Specific legal citations include:

- Toxic Substances Control Act, as amended, 15 U.S.C., Sec. 12(b)
