Clean Air Act, as amended, Section 502
Safe Drinking Water Act, as amended, Section 1401, et seq.
Toxic Substances Control Act, as amended, Sections 2605, 2607, 2611, 2614
and 2616
40 CFR 52 40 CFR 144 40 CFR 233 40 CFR 761
40 CFR 122 40 CFR 220 40 CFR 124

DISPOSITION INFORMATION:

FINAL DISPOSITION:

TRANSFER TO FRC PERMITTED:

- | | |
|--|-----|
| a. Underground Injection Control (UIC) permits when EPA is permitting authority and UIC exemptions:
Permanent | Yes |
| b. NPDES minor permits:
Disposable | Yes |
| c. All others: Disposable | Yes |

All others refers to: UIC except when EPA is permitting authority and UIC exemptions; NPDES except minors; pretreatment; ocean dumping, Section 404 dredging and fill; PSD; and TSCA PCB disposal.

FILE BREAK INSTRUCTIONS:

- a. Break file when injection deadline is met.
- b. Break file when no longer needed.
- c. Break file at permit renewal or termination (revocation or expiration) or at end of the fiscal year; bring forward active materials.

DISPOSITION INSTRUCTIONS:

- a. Keep inactive files in office up to 5 years after file break, then retire to FRC. Transfer to NARA 30 years after file break.
- b. When State is authorized, destroy when no longer needed. When State is not authorized, keep inactive files in office up to 5 years after file break then retire to FRC. Destroy 10 years after file break.
- c. Keep inactive files in office up to 5 years after file break, then retire to FRC. Destroy 10 years after file break.

APPLICATION GUIDANCE:

REASONS FOR DISPOSITION: This combines several previously scheduled items dealing with the Agency's permitting process. Underground Injection Control exemptions have been added as they provide a basis for on-going monitoring of possible public health threats to ground water. UIC exemptions pose the same long term threats that Superfund sites do and merit the same retention. These files contain information that would prove invaluable for remedial action if it should be determined that such action is warranted.

AGENCY-WIDE GUIDANCE: If authorized States maintain disposable records for retention periods identified above, the program office may decide to review the records in the State offices rather than maintain copies in Regional offices and destroy the copies it receives.

Draft permits may be destroyed after approval of final permit.

RCRA program permits are scheduled as EPA 478A - RCRA Generators, Transporters, and TSD Facilities Files.

Notification forms which have been withdrawn or cancelled prior to issuance of a permit are subject to the same retention as the permits.

Program office may retain permit files in the office if a permit is likely to become a compliance or enforcement issue. For example, PSD files on sources which have been closed or which have not emitted pollution for a period of 5 years may be retained if the potential for air pollutant emissions has not

EPA SERIES NO. 205A

been eliminated, i.e., process equipment for facilities have not been dismantled or removed from the site. EPA 207R covers Enforcement Action files and EPA 211A covers Compliance. See EPA 210R for Administrative Records - Permits, EPA 404H for Actual and Proposed NPDES Permits Reports, EPA 419A for Permit Compliance System, and EPA 432A for UIC Program Summary System.

As required by 36 CFR 1228.58, records with special restrictions such as confidential business information (CBI) or those exempted from disclosure by statute such as the Privacy Act must be shredded or otherwise definitively destroyed with witness disposal for records destroyed by contractors.

PROGRAM OFFICE GUIDANCE/ DESCRIPTIVE INFORMATION: Previous schedule items combined into this schedule were for the following programs: Federal Activities, Water, Air and Hazardous Waste, Regional Administrator and Staff, and Enforcement. Specific item numbers are cited below.
