AGENCY-WIDE GUIDANCE: The Regional unit responsible for managing the remedial process is responsible for managing and implementing the disposition and determining the appropriate milestones for these records in accordance with this schedule. Remedial site file records for Federal Facilities (National Contingency Plan (NCP) 40 CFR 300.5) are the responsibility of the lead agency and copies maintained by EPA may be destroyed when no longer needed.

Reference copies of these files held by all other offices may be destroyed when no longer needed to support current activities.
