The attached records control schedules provide series descriptions and retention and disposition provisions for the Pesticide & Toxic Substances machine-readable records.

STANDARD FORM 115
Revised April, 1975
Prescribed by General Services Administration
FPMR (41 CFR) 101-11.4
### Title of Schedule: Pesticides Product Information System

**Purpose:** The system is used to support the requirement for registration and classification of all pesticides produced and used in the country. It also provides a centralized source of information on all registered products.

**Scope:** The system contains technical and administrative information concerning all pesticides registered in the United States. This includes chemical composition, toxicity, name and address of registrant, brand names, date of original registration and latest amended date, etc.
