This records schedule pertains to the textual records of the Nuclear Safety Research Review Committee (NSRRC).

The advisory committee was created 2/9/88 in order to provide advice to the Director of the Office of Nuclear Regulatory Research, and through him the Commission, on matters of overall management importance in the direction of NRC's program of nuclear safety research.

The program records are scheduled as one series due to the small volume involved. The description of the administrative records has been tailored for application to the NSRRC, but was previously scheduled under NC1-431-81-5, item 1.1.5, and does not require further assessment.

1. Records of the NSRRC

Records of the NSRRC consisting of agendas, minutes, briefing materials, transcripts of full committee and subcommittee meetings, reports describing committee and subcommittee findings and recommendations, subject files consisting of internal memorandum, incoming and outgoing correspondence, special studies project files on topics requested by the Director of the Office of Nuclear Regulatory Research on the Commission, and all other documents pertaining to the functions, policies, and program responsibilities of the committee.

Copies sent to agency, NCF, NNT, NNW 4/12/90
