## Background Information

The Thrift Savings Plan (TSP) is a retirement savings and investment plan for Federal employees established in the Federal Employees' Retirement System Act of 1986, which has been codified as amended largely at 5 U.S.C. §§ 8401-8479 (1994). It is managed by the Federal Retirement Thrift Investment Board (FRTIB).

The following disposition schedule relates to the records maintained by the FRTIB's Office of Automated Systems (OAS). OAS oversees the development and operation, currently through an interagency agreement with the National Finance Center (NFC), of the automated recordkeeping system which is designed to establish and maintain participant TSP accounts and support the TSP benefits programs. The office is also responsible for the development, implementation, and maintenance of the TSP data communication systems as well as office automation and administrative support systems at the FRTIB.
