

The United States Institute of Peace (USIP) is not subject to the Federal Records Act as determined by NARA General Counsel. Records schedules approved by the National Archives and Records Administration are nonbinding on USIP. NARA General Counsel has determined that the appropriate vehicle, should the National Archives decide to accept USIP records, is a deed of gift. We have inactivated legacy schedules in ERA adding a note regarding why the schedules were inactivated.

For questions about USIP records management, please contact them directly.
