Records Control Schedule

Mission Description

National Intelligence Managers (NIMs) serve as the single focal point within the ODNI for all activities related to their portfolios. They are the DNI's principal advisors for community oversight and coordination of their respective mission area. NIMs integrate the Intelligence Community's (IC) collection and analytic efforts for their designated region, country, functional issue, or topic. NIMs are responsible for intelligence mission management within their area of responsibility; they maintain cognizance of the IC's activities and understand the range of customer requirements; and they maintain senior-level contacts within the intelligence, policymaking, and warfighting communities to ensure that the full range of informational needs related to their mission area are met.

NIMs are also responsible for the development and implementation of one or more Unifying Intelligence Strategies and other plans and campaigns to integrate IC activities. They also contribute directly to the DNI's and IC senior leaders' resource management deliberations and decisions.

~~The Mission Managers for North Korea, Cuba, Venezuela, Iran, and any subsequent country mission managers that arise are responsible for integrating collection and analysis on their respective subjects across the Intelligence Community, identifying and filling gaps in intelligence, and planning and ensuring the implementation of strategies, among other duties.~~

~~The Mission Managers lead the Intelligence Community at a strategic level rather than directly managing operations or analysis. Their areas of interest are designated as high-priority intelligence targets by the highest levels of the government.~~

Application of the Records Control Schedule Disposition Instructions

This schedule will also apply to similar components that may be established in the future with a country-specific mission.

The disposition instructions in the records control schedule are mandatory. Any Federal records received or created by ~~Mission Manager~~-NIM staff or contractors not specifically covered by this schedule or the General Records Schedules are to be retained until an applicable disposition authority approved by the National Archives and Records Administration (NARA) is obtained.

The Information Management Officer with responsibility for ~~Mission Manager~~-NIM records will support effective implementation of the disposition requirements of this schedule through the development and issuance of appropriate operational guidance and supplementary instructions necessary to assure adequate and proper documentation of the ~~Mission Managers~~-NIMs' missions, responsibilities, and actions.

Note on Sensitivity of ~~Mission Manager~~ National Intelligence Manager Records

The majority of the records addressed in this schedule are classified as national security information in accordance with statutory and national policy directives. Most of the records series described in this schedule contain information classified to the highest levels, requiring appropriate planning for their continued secure storage until they are declassified or destroyed. The user of this schedule should assume the subject records are highly classified unless noted otherwise. In addition, certain series may contain material covered by the Privacy Act or be potentially exempt from disclosure under the Freedom of Information Act for reasons other than National Security, such as law enforcement information, commercially sensitive ("trade secrets") information, or grand jury documentation. An effort has been made to note these series.

Note on Electronic Records

The ~~Mission Managers~~-NIMs and staff maintain record copies of official files in electronic form on both shared and individual network drives. In addition, some staff members may keep some files on their individual local or network drives, although this is discouraged. Records kept on both the network and local individual drives that are not disposable under the General Records Schedules (GRS) are to be moved or copied to the network shared drives or kept in paper files, as appropriate, to be retained or destroyed in accordance with an approved ODNI disposition authority.

Records Descriptions and Disposition Instructions

Item	Title & Description	Disposition
MM 1.	<p>Program Subject Files These files are coordinated outside the unit of origin or contain information that adds to a proper understanding of the formation and development of significant final policy, decisions, or actions. Records relate to, support, and fulfill the mission of integrating collection and analysis associated with the mission target across the Intelligence Community by identifying and filling gaps in intelligence and planning and ensuring the implementation of strategy. Records include Memos for the Record and associated Staff Summary Forms, Congressionally Directed Action Coordination files, Annual Reports, Memorandums of Conversation, results from Collection Board meetings, records of Collection and Analysis Postures, Strategy and Implementation files, Crisis Management Plans, briefing materials, and other program-related records.
