**Office of the Director of National Intelligence  
OFFICE OF THE DEPUTY DIRECTOR OF  
NATIONAL INTELLIGENCE FOR POLICY, PLANS, & REQUIREMENTS**

**Records Control Schedule**

**Mission Description**

The Office of the Deputy Director of National Intelligence for Policy, Plans, & Requirements (DDNI/PPR) has responsibility for driving vital intelligence reform through policy development, management and oversight; modernizing security processes; building strategic partnerships with foreign, military, federal, domestic and private sector organizations; and developing IC-wide strategy, plans and requirements through open collaboration. Within DDNI/PPR are the Offices of the Assistant Deputy Director for Policy (P), the Assistant Deputy Director for Security (SEC), the Assistant Deputy Director for Strategic Partnerships (SP), and the Assistant Deputy Director for Strategy, Plans, and Requirements (SPR), and the Office of the Chief of Staff, which is part of the Front Office.

**Application of the Records Control Schedule Disposition Instructions**

The disposition instructions in the records control schedule are mandatory. Any Federal records received or created by Office of the DDNI/PPR personnel or contractors not specifically covered by this schedule or the General Records Schedules are to be retained until such time as an applicable disposition authority approved by the National Archives and Records Administration (NARA) is obtained. To take into account the fluid nature of electronic filing, those responsible for implementing this schedule should be aware that record copies of record types described in this schedule are to receive the prescribed disposition wherever they are filed.

The Information Management Officer with responsibility for the Office of the DDNI/PPR records will support effective implementation of the disposition requirements of this schedule through the development and issuance of appropriate operational guidance and supplementary instructions necessary to assure adequate and proper documentation of the official mission, responsibilities, and actions of the Office of the DDNI/PPR.

**Note on Sensitivity of DDNI/PPR Records**

The majority of the records addressed in this schedule are classified as national security information in accordance with statutory and national policy directives. Most of the records series described in this schedule contain information classified to the highest levels, requiring planning for their continued security until they are declassified or destroyed. The user of this schedule should assume the subject records are highly classified unless noted otherwise. In addition, certain series may contain material covered by the Privacy Act or potentially exempt from disclosure under the Freedom of Information Act for reasons other than national security, such as law enforcement information or commercially sensitive ("trade secrets") information. An effort has been made to note these series.

**Note on Vital Records**

Records management personnel should be alert to the need to identify vital records so that they can be accessed quickly when needed. Vital records are (1) those that specify how the ODNI will operate in case of an emergency or disaster, (2) those necessary to the ODNI's continued mission critical operations during and after an emergency, and (3) those that must be preserved to protect the legal and financial rights and interests of the ODNI and of persons affected by the ODNI.

**Note on Electronic Records**

The DDNI/PPR and staff maintain record copies of official files in electronic form on both shared and individual network drives. In addition, some staff members may keep some files on their individual local drives, although this is discouraged. Records kept on both the network and local individual drives that are not disposable under the General Records Schedules (GRS) are to be moved or copied to the network shared drives or kept in paper files, as appropriate, to be retained or destroyed in accordance with an approved ODNI disposition authority.

**Assistant Deputy Director  
for Security**

The ADDNI/Security is responsible for developing clear, uniform, Intelligence Community-wide security standards and practices governing such issues as access to facilities, electronic access to systems and databases, and clearance of personnel. The Office of ADDNI/SEC (SEC) consists of the Center for Security Evaluation (CSE) and the Special Security Center (SSC). The mission of CSE is to provide Intelligence Community advice and requirements to the Department of State in carrying out the Secretary's statutory responsibilities to develop and implement policies and programs for the protection of US diplomatic facilities and personnel abroad. SSC exists to assist the ODNI in sharing and protecting national intelligence information throughout the Intelligence Community (IC), the US Government, US contractors, state and local officials and our foreign partners. The SSC's objectives include promoting security uniformity and reciprocity in the IC to facilitate the sharing of vital intelligence with all of those who need it. A primary goal is to make security among IC agencies as seamless as possible, to include reciprocal access to IC facilities, electronic information systems and databases and IC-wide mutual acceptance of security clearances and access approvals.
