Office of the Director of National Intelligence
OFFICE OF LEGISLATIVE AFFAIRS

Records Control Schedule

Mission
Personnel of the Office of the Director of National Intelligence (ODNI) Office of Legislative Affairs (OLA) interact on a day-to-day basis with various committees of the House of Representatives and the Senate, including but not limited to: the House Permanent Select Committee on Intelligence, the Senate Select Committee on Intelligence, and the House and Senate Appropriations Defense Subcommittees as well as the Offices of House and Senate Security.

Application of the Records Control Schedule Disposition Instructions
The disposition instructions in the records control schedule are mandatory. Any Federal records received or created by personnel or contractors on behalf of the OLA not specifically covered by this schedule or the General Records Schedules are to be retained until such time as an applicable disposition authority approved by the National Archives and Records Administration (NARA) is obtained. To take into account the fluid nature of electronic filing, those responsible for implementing this schedule should be aware that record copies of record types described in this schedule are to receive the prescribed disposition wherever they are filed.

The Information Management Technical Officer with responsibility for the records of the OLA will support effective implementation of the disposition requirements of this schedule through the development and issuance of appropriate operational guidance and supplementary instructions necessary to assure adequate and proper documentation of the official mission, responsibilities, and actions of the component.

Note on Sensitivity of OLA Records
The majority of the records addressed in this schedule are classified as national security information in accordance with statutory and national policy directives. Most of the records series described in this schedule contain information classified to the highest levels, requiring planning for their continued security until they are declassified or destroyed. The user of this schedule should assume the subject records are highly classified unless noted otherwise. In addition, certain series may contain material covered by Privacy Act or Freedom of Information Act restrictions other than National Security, such as law enforcement information or commercially sensitive ("trade secrets") information. An effort has been made to note these series.

Note on Vital Records
Although no vital records are currently identified in this schedule, records management personnel should be alert to the need to identify such records so that they can be accessed quickly when needed. Vital records are (1) those that specify how the ODNI will operate in case of an emergency or disaster, (2) those necessary to the ODNI's continued mission critical operations during and after an emergency, and (3) those that must be preserved to protect the legal and financial rights and interests of the ODNI and of persons affected by the ODNI.

Note on Electronic Records
The OLA and staff maintain record copies of many official files in electronic form on both shared and individual network drives. In addition, some staff members may keep some files on their individual local drives, although this is discouraged. Records kept on both the network and local individual drives that are not disposable under the General Records Schedules (GRS) are to be moved or copied to the network shared drives or systems or kept in paper files, as appropriate, to be retained or destroyed in accordance with an approved ODNI disposition authority.
