GERMAN DOCUMENTS AMONG THE WAR CRIMES RECORDS OF THE
JUDGE ADVOCATE DIVISION, HEADQUARTERS, UNITED STATES ARMY, EUROPE

Introduction

Many German documents from the World War II period are contained in the war crimes case files of Headquarters, United States Army Europe (HQ USAREUR), Judge Advocate Division, dated 1945-58. These files contain transcripts of trial testimony, clemency petitions, affidavits, prosecution exhibits, photographs of concentration camps, etc., as well as original German documents used as evidence in the prosecution of the numerous war crimes cases, excluding the Nuremberg Trials, concerning atrocities in concentration camps, atrocities committed on Allied military personnel and Allied fliers who crash landed in Germany, and other crimes. Only the German documents predating May 8, 1945, have been included in this filming project.

A data sheet describing the material in each folder microfilmed is included before the items filmed. The Judge Advocate Division file number has been used to identify each item wherever given. In other instances whatever identifying information is available, such as the case or exhibit number, has been given as the item number. Overall provenance for the records is HQ USAREUR, Judge Advocate Division, as all German documents in the files were made a permanent part of the records of that office; however, the original German provenance of the items filmed is given as the provenance on the data sheets.
