

## RB-66 ON ESPIONAGE MISSION OVER GDR

### Oggi on Photography Equipment

Oggi in Italia (Clandestine) in **Italian** to Italy 1930 GMT 20 March 1964--L

(Text) The three American airmen who parachuted into GDR territory after their plane was shot down by the Soviet fighters seem to have been involved in an espionage mission. According to the West Berlin BERLINER MORGENPOST, the plane was photographing Soviet military maneuvers in progress in the GDR. All of the material is now in the hands of the Soviet authorities who recovered the cameras installed in the RB-66 after it was shot down.
