[Text] The Potsdam District Court today has sentenced to 13 years imprisonment West Berlin citizen Jergen Schimschar. As a member of the criminal Mierendorff gang of traffickers in human beings and by order of intelligence agent and West Berlin habitual criminal (Ningel), Schimschar had continuously abused the transit agreement.

On 8 June he attempted to force his way through the GDR state border at the Drewitz border check-point by car, thereby seriously endangering a large number of human lives.

The exemplary punishment of the banditry and border provocations, unscrupulously committed by Schimschar, was served not least in the interest of all transit travelers.
