SUBJECT : Response to Office of Legislative Counsel Request

1. In order to provide answers to the questions posed in paragraphs 9, 10 and 11 of reference we again have reviewed the files which were returned to Headquarters following the death of Winston Scott in Mexico City. These files are stored at the Agency Records Center in  Virginia.

2. Reference paragraph nine any files which were maintained in the Staff on Lee Harvey Oswald presumably have been reviewed by the members of the House Select Committee on Assassinations. They are available in Mr. Russell Holmes' office. Regarding your request for any and all files maintained by James Angleton and/or the CI Staff that pertain to Mexico Surveillance Operations; there are several hundred reels of audio film stored in the Records Center which contain telephone coverage of the Soviet and Cuban Embassies in Mexico City for the period 22 November 1963 through 13 December 1963. A review of these tapes by persons from CI Staff and LA Division did not uncover any information pertinent to the assassination of President Kennedy. The period covered is subsequent to the time that Oswald was known to be in Mexico.

3. Attached are two listings of the Mexico City Station files in the possession of Winston Scott at the time of his death. Both listings are for the same files; the 5 May 1977 listing was prepared for LA Division, while the form 4034, dated 21 October 1977, was prepared during a task force review of all the files held at the Records Center. One of the objectives of the file review at the Records Center was better organization of our retired files. Another was the removal of all duplicate paper.

4. We do not have a record of any files in Mr. Scott's safe that pertained to the Subjects in paragraph 11 of reference. We have reviewed the material described in paragraph three above and reproduced (attached) those documents that pertain to the Subjects in paragraph 11 that might be of interest to the HSCA.
