SUBJECT: Delay in sending the first cable about
OSWALD

1. Much has been written about the delay (by the Mexico Station) in sending the first cable requesting traces on the name Lee OSWALD. It was discussed in Dave Phillips book as a case of laziness on the part of the Soviet case officer (which in my view was unjust and unnecessary and indicates that Dave didn't know what he was talking about).

2. Normally, the Spanish transcript for the 1 October conversation would have been picked up on the morning of the 2nd of October. The Russian language portion would have gone to the Russian/English transcriber on the 3rd of October. The translation would have been returned the following day (4th) at which time, the Soviet case officer would have asked for the photographic coverage. That coverage would not have been in the station before the 7th since the film was still in the camera on the 3rd of October and it was picked up probably on the 4th, processed and passed to the Station on the next work day which would have been Monday 7 October.

3. Later the film was taken out of the camera every day but at that time, the film stayed in the camera until a full roll was completed which might take three or four days.

4. A name trace could have been requested on the basis of the name alone but that wasn't the way Win Scott ran that Station. He wanted the photographic coverage tied in with the telephone coverage...sometimes there was a U.S. automobile license number. It was also part of the "numbers game" of justifying a project by the number of dispatches, cables or reports produced.

SUBJECT: Review of Mexico City Station Files
 at the [redacted] Record's Center

1. On 2 May 1977 Chris Hopkins and Annie Goodpasture visited the [redacted] Record's Center to review old Mexico City files in search of additional photographs of the "unidentified man". We were unable to locate any such photographs. It appears that earlier photographs may have been destroyed in a purge of Mexico City Station files and that the folders for the destroyed material were re-used to forward more recent photographic material to Headquarters for retention. Following are the Job numbers of boxes reviewed and pertinent notations re re-use of the old folders:

Mexico Station Coverage of Soviet and Cuban Embassies (1963)

1. [REDACTED] Coverage:

REPRODUCTION PROHIBITED

From the time the Mexico Station was opened (in April 1947) until the arrival of Mr. Win Scott as Chief of Station (in 1955), the Station had developed a support apparatus to exploit leads from the Soviet Embassy in Mexico City. This umbrella type project (LIPSTICK) consisted of multiline phone taps, three photographic sites, a mobile surveillance team and a mail intercept operation.

Telephone taps (LIFEAT) were placed by [REDACTED]

[REDACTED] handled by a Station case officer. The number of lines tapped was limited only by the availability of a listening post nearby and the availability of language (English, Spanish, Soviet, Polish, Czech, etc.) transcribers. Generally, these were Mexican or Mexican-American recruited agents.

Three photographic sites were handled by a Station case officer assisted by technicians on TDY from Headquarters who advised the Station on the best types of cameras, films, and concealment devices. These operations had sub-crypts under project LIPSTICK (namely: LIMITED, LILYRIC and LICALLA). LIMITED was a fixed site directly opposite the Soviet Embassy (across the street) which had both a vehicle and a pedestrian entrance. The gate to the Soviet Embassy was on the northwest corner of the

Soviet compound and the LIMITED site was diagonally across a double laned street on the southeast corner of that block. (See attached diagram).

LIMITED was the first photo base and operated strictly on an experimental basis in the early stages. This base, however, was closed when the Station received word that the photograph of the "unidentified man" was being released by the Warren Commission. LILYRIC was an alternate photographic base. It was located in an upper story of an apartment building on the same side of the street as the LIMITED site but in the middle of the block south. It had a planted view of the front gate of the Soviet Embassy. LICALLA, the third photographic site, was located in one of a row of four houses on the south side of the Soviet Embassy compound. This site overlooked the back garden of the Soviet Embassy compound. The purpose of this operation was to get good identification photographs of Soviet personnel. The three photographic sites were managed by a recruited agent who was a Mexican citizen, the son of an American mother and Mexican father (deceased). This agent collected the film from the LIMITED and LILYRIC sites three times a week. The film was then developed and printed into 8 x 10 contact print strips. LICALLA film was originally processed in the Station but in early [1959], due to the resignation of a technician, this film like that of LIMITED and LILYRIC was processed on the outside by a recruited agent.

Mobile surveillance was conducted by two American staff officers.

These two officers organized a surveillance team of six recruited agents which used late model cars and a panel truck for surveillance. The team could be activated by radio from the LIMITED site whenever someone of interest left the gate of the Soviet Embassy. These agents were aware of the LIMITED site since they had been issued LIMITED photographs for identification purposes.

The Station also conducted a [redacted] mail intercept operation, LIBIGHT, which was handled by an American case officer. [redacted]

[redacted] obtained selected letters from a subagent [redacted]

2. [redacted] Coverage:

[redacted] coverage was unreliable and insecure as characterized by the nature of the [redacted] at that time. The Mexican Direction of Federal Security (DFS), [redacted], was a hip-pocket group run out of the Mexican Ministry of Government. This Ministry was principally occupied with political investigations and control of foreigners. Their agents were ^{BRUTAL} [redacted], and corrupt. [redacted]

[redacted] the Station chief, himself, became the project case officer. A Station officer assisted him in the daily supervision of the listening post, and in picking up the transcripts and the tapes. There was also an American technician inside the listening post.

3. Oswald Coverage:

REPRODUCTION PROHIBITED

In mid-1962, [redacted]

[redacted] post for the telephone numbers of the Soviet, Cuban and Satellite Embassies in [redacted] The Station immediately

[redacted] soon thereafter connected five Cuban lines, five Soviet lines, three Czech lines, two Polish lines, and one Yugoslav line. At the listening post, a live monitor made short summaries of conversations of interest which were then included in a daily resume for the Chief of Station. Later, when a reel was completely recorded, full transcripts were typed and passed to the Station; however, there was usually a time lag of a day or two. Reels which contained Russian

in a language other than Spanish or English were taken to another location for translation and typing. Mr. Boris Tarasoff did the Russian translations but because of the volume of Russian conversations, the translations usually ran about a week behind the date of the conversation.

As soon as the Station learned that an American identifying himself as Lee Oswald phoned the Soviet Embassy, Miss Ann Goodpasture of the Station started screening all photographs. However, here again, there was a backlog because the photographs were picked up three times a week but those picked up were usually for dates a few days before since the technician who was processing the film, did so on a night-time basis. Further, photographs were not made initially until a complete roll of film was used. Later this was changed and the operator cleared the camera at the end of each day regardless of amount of unused film remaining.

The instructions were to cover the entire work day (office hours) and to photograph all Soviets, their families, all foreigners, and cars with foreign license plates. Human error did occur but generally the agents were conscientious. The Cuban Embassy coverage had more sophisticated equipment using a pulse camera which frequently developed mechanical difficulties.

~~REPRODUCTION PROHIBITED~~

Oswald came to the attention of the listening post operators from a tap of the Soviet line. It was picked up and taken to Mr. Boris

Tarasoff for translation because the caller was trying to speak in Russian. There was some delay because Station personnel waited to compare the photographs with the typed transcript. All transcripts were made in either Spanish or English since the Chief of Station could read only these two languages and because he personally screened the transcripts for operational leads.

Subject: Background on Mexico Station Support Assets
(Coverage of Soviet and Cuban Embassies)

1. [redacted] coverage. From the time the [redacted] station was opened in April 1947 (by Bill Doyle) until [redacted] John Scott as COS in 1956, Charles Anderson III (still in LA/HQ) had developed a support apparatus to [redacted] exploit leads from the Soviet Embassy. This umbrella type project (LIFEAT) consisted of multi line phone taps, three photo sites, a mobile surveillance team and a mail intercept operation.

a. Phone taps were placed

handled by David WILSTED (pseudo). The number of lines tapped was limited ^{over} by availability of a listening post nearby (since the taps were not made in the main central) and English/Spanish (Soviet, Polish, Czech, etc) transcribers. Generally these agents (mostly Mexican or Mexican American) were related (which the station at that time felt was good security in that if they talked about shop, they would talk to each other.)

b. Three photo sites were handled by Anderson with the help of Harry Mahoney (retired, living in Chicago) and TDY TSD people checking the best type of camera, film, and concealment devices. These had sub-cripts under LIFEAT (LIMITED, LILYRIC, and LICALLA). LIMITED was a fixed site bang opposite across the street from the front gate of the Soviet Embassy which had both a vehicle and foot entrance. The Soviet gate was on the Northwest corner of their compound and LIMITED was diagonally

that block. LIMITED was the first base and it operated strictly on an experimental basis in the early stages. I think the Mexi Station bought one storey this property (a Spanish Colonial stone house) through LIMOUSINE (check to be sure). Later this house began to fall apart. This base was closed when the Station got word that the photo of "uniden man" was being released to the public by the Warren Commission. The photo operators were moved to another apt nearby. The property was sold (under an operational agreement with LIMOUSINE for a long term lease on the top floor of a new apartment blding to be built on this site). LILYRIC was planned as an alternate base to LIMITED. It was in an upper storey (3rd floor -check) on the same side of the street as LIMITED but in the middle of the block So. It had a slanted view of the front gate of the Soviet Embassy. The agents in LIMITED and LILYRIC (both Mexican families) as far as we knew, were not acquainted with each other.

LILYRIC was a rented apartment. LICALLA, the third photo site, was located in one of a row of four houses on the South side of the Soviet Embassy compound which the Mexico Station purchased in about 1958 (check date), also using LIMOUSINE as the purchaser (check). This site overlooked the back garden of the Soviet Embassy compound. The purpose of this operation was to get good identification photographs of the Soviet personnel (who at that time were largely unidentified in Mexico Station records). The three photo sites were handled by

Ramon Alvarez (Mexican citizen of U.S. mother [redacted])

[redacted]. Ramon collected the film ~~collected~~ from LIMITED and LILYRIC three times a week. His sister's husband [redacted] developed and printed the film into 8x10 contact print strips. The master plan was for LICALLA film to be processed ⁱⁿ ~~inside~~ TSD man from 1957 to 1959 [redacted]

[redacted] - resigned) could not handle the volume and as the unprocessed film began to accumulate, the inside CO (Mahoney) became disgusted and took the film out for Ramon's brother-in-law to process (probably early 1959). Thus Ramon became the handler for all three photo bases. A sensitive staff D monitoring operation

was run out of another one of these houses (crypt for the four houses was LIBUST/1, etc). This was handled by Glen WIDDEN (outside TSD officer) and Mahoney using HQ TDY teams for monitoring. This operation was also separate from LICALLA. The two houses in between were rented to unsuspecting tenants.

c. Mobile surveillance was developed by Anderson and later placed under Mahoney and Joseph Sancho. This team consisted of a half dozen or so agents who used three to four late model cars and a panel truck (which could be used on stake outs for photo coverage). The plan was to activate this group by radio (from LIMITED BASE) Soviet when someone of interest left the Embassy and stay with them until they made their meetings. These agents knew about the LIMITED BASE because they had LIMITED codes for identification purposes. This worked fairly well until about the middle of 1958 (check date) when one of the surveillance agents got too close to his target and was arrested by the Mexican transit police and turned over to the Mexican Secret Service. By the time the Station could arrange through a cleared attorney to bail him out [redacted]

[redacted], the agent had identified Sancho (who was evacuated across the border at Nogales by Bob Shaw) and the inside phone number of Mahoney (who was subsequently replaced by Louis Puckett). As a result of this flap, the LIFFAT project was broken up into several others. The agents were not changed but were given Frank new crypts. Estancona and [redacted] replaced Anderson in handling the [redacted] phone taps. Puckett replaced Mahoney and handled the surveillance team (LIENTRAP) and the photo bases through [redacted] Ramon.

d. LIBIGHT was the crypt used for a [redacted] mail intercept handled by Charlie Anderson III, [redacted]

replaced by [redacted], Mahoney, Thomas Hazlitt, and [redacted] (one after the other)

During 1958, Win Scott met socially some of the [redacted]

of the listening post, picking up transcripts and tapes. Goodpasture had no[redacted] except when Scott was ill or out of town. Generally,
all decisions were made by Scott. This was about late 1961..

3. My memory is a little vague about the origins of the Cuban Embassy but I think the staff first developed from a pro-Castro group celebrating on New Years eve 1959. As I recall, it was a makeshift arrangement of volunteers through most of 1960 and 61 with Tom Hazlitt producing voluminous reports on their activities and recruiting agents right and left among Cuban nationals in Mexico City.

4. Personnel assignments. Of interest to us now is who was in Mexico during the period prior to Oswald's visit and the subsequent investigation by the Warren Commission. To determine who was there and what they were doing I have grouped persons together chronologically with areas of their assignment covering from 1950 to 1969 so that [redacted] names pop up, one can tell what period they were in Mexico and their assignments [redacted] at the time.

These reels were taken to another location where they were translated and typed. In the case of the Russian translations, Boris Tarasoff usually ran about a week behind the date of the conversation because of the volume of Russian conversations among the members of the Soviet Embassy. (I think) handled this film - pick up and delivery. Lorna MacKay screened the film inside the station.

I am certain that the Oswald call came to our attention from the Soviet line. It was picked up and taken to Bowes for a translation because the caller was trying to speak Russian. The delay was caused by waiting to compare the photographs with the type transcript. There were no copies of transcripts ever made in languages other than Spanish or English because Win Scott could read only those languages and he personally screened the transcripts for operational leads he wanted pursued.

27 September 1963, Soviet Embassy Chancery 15-61-55

Item 295, page 3

At 1626 hours, A Soviet calls from the Soviet Embassy Chancery to the Cuban Consulate and asks for Sylvia DURAN. He asks DURAN if the american has been there.

DURAN: Yes, he is still here.

SOVIET: According to the letters that he showed them from the (Soviet) Consulate in Washington, he wants to go to the USSR to stay a long time with his wife who is Russian, but also the answer had not been received (by him) regarding his problem. That accordingly these transactions take 4 or 5 months but without prior approval from the USSR, they have to request and even then, they could not issue the visa here (in Mexico City) without asking Washington. Yet accordingly this man (the American), showed him a letter in which he (the American) is a member of an organization in favor of Cuba and said that the Cubans could not give him the visa without the Russian visa and now the Soviet doesn't know what to do with him, because he has to wait for the answer from Washington.

DURAN: ..with them also, because the problem with him (the American) is that he doesn't know anyone in Cuba and in that case it is very difficult to give him a visa, because he was thinking of processing his visa, because he knew it was going to take a long time waiting for the Russian visa in Cuba, and then return to the USSR.

SOVIET: ..that the thing is that if his (the American) wife were now in Washington (and) going to receive the visa right now or the permission from the USSR to return to her country, (if) she is going to receive her visa in Washington, then having this visa, she can communicate to whatever place, this permission, for example, here or in any other place (he) can receive it, but right now they do not have them.

DURAN: ..certainly and neither can (the Cubans) give him a letter because they do not know if the visa will be approved.

SOVIET: They can only give the visa according to instructions.

DURAN: Then that is what she will put on his application.

SOVIET: Neither can I give him any letter of recommendation because I don't know him and pardon me for bothering you.

DURAN: It was no bother, thank you very much.

27 September 1963, Soviet Embassy Consulate 15-60-55

Item 74, page 2

An unidentified man (speaking Spanish) calls the Soviet Embassy Consulate at 1037 hours and asks for the Consul. He is told that the Consul is not there. The unidentified man asked what is needed to get visas to go to Odessa. He is told to call back at 1130 hours.

Item 137, page 2

At 1235 hours a man named ALATRISTE (not a Soviet) from inside the Soviet Embassy Consulate calls out to number 45-37-72 (Colonial America, probably a pension or hotel but number not listed in the telephone directory) and speaks with a man named SAN ROMAN. ALATRISTE says that he is in the Russian Embassy and they need to know what day the boat "KALONIA" will arrive in Odessa. That the Soviets will also need copies of the passenger manifest.

(One concludes that ALATRISTE and SAN ROMAN are shipping representatives for the boat "KALONIA", and needed routine visa information. First a call was made to the first listing for the Soviet Embassy in the Mexican telephone directory (which turned out to be the Military Attaché). They got the phone number for the Consulate and the address. After making a call to the Consulate and learning that it would not be open until 1130 hours, ALATRISTE went to the address to get the needed information.)

Item 395, pages 7 and 8

Just after 1600 hours, the Soviet Consulate received a call from the Cuban Consulate (Sylvia DURAN) who said she had there a U.S. citizen who had requested a transit visa to Cuba because he is going to the USSR. DURAN wants to know with whom he spoke at the Soviet Embassy because she sent him over to them telling him that if the Soviets approved the visa then the Cubans would give him one without anything more, advising the (Department of) Immigration in Cuba. She wants to know with whom he spoke because he says that he doesn't know either with what person and who told him that certainly there would be no problem. The Soviet asks DURAN to wait a minute. After a short wait DURAN explains the same thing to another Soviet. This Soviet tells her to leave her telephone (number) and her name and someone will return the call. DURAN gives her name and telephone number 11-28-47 then says as a personal thing, she has moved and has not advised them of a change of address so will not receive their Bulletin and can give it to them now. The Soviet asks her to call KOUKHARENKO in order to change that address and asks for the name of the (Cuban) Cultural Attaché. DURAN says it is Teresa PROENZA whose number is 14-13-26. The Soviet thanks her.

MEMORANDUM FOR : The Ambassador

FROM : Winston M. Scott

SUBJECT : Lee OSWALD/Contact with the Soviet Embassy
Ambassador notified by COS MEDEVAC

1. The following information was received from a usually reliable and extremely sensitive source: On 1 October 1963, an American male contacted the Soviet Embassy and identified himself as Lee OSWALD. This officer determined that OSWALD had been at the Soviet Embassy on 23 September 1963 and had talked with Valeriy Vladimirovich KOSTIKOV, a member of the Consular Section, in order to learn if the Soviet Embassy had received a reply from Washington concerning his request. We have no clarifying information with regard to this request.
2. Our Headquarters has informed us that the OSWALD above is probably identical with Lee Henry OSWALD, born on 18 October 1939 in New Orleans, Louisiana, a former radar operator in the U.S. Marine Corps who defected to the Soviet Union in October 1959.
3. This office will advise you of additional information on this matter as received.

1. AFTER ANALYZING ALL THE TRAFFIC AND READING THE STATEMENT OF SILVIA DURAN, ONE IMPORTANT QUESTION STILL PUZZLES US. WHEN LEE OSWALD WAS IN MEXICO CITY IN LATE SEPTEMBER AND EARLY OCTOBER TO GET A SOVIET VISA AND A CUBAN TRANSIT VISA, DID HE WANT TO TRAVEL TO CUBA RIGHT AWAY, ALONE, OR HAVE HIS WIFE JOIN HIM THERE AND THEN LEAVE FOR CUBA, OR DID HE PLAN TO RETURN TO THE STATES FIRST AND THEN LEAVE LATER. ALTHOUGH IT APPEARS THAT HE WAS THEN THINKING ONLY ABOUT A PEACEFUL CHANGE OF RESIDENCE TO THE SOVIET UNION, IT IS ALSO POSSIBLE THAT HE WAS GETTING DOCUMENTED TO MAKE A QUICK ESCAPE AFTER ASSASSINATING THE PRESIDENT.

2. PLEASE RESTUDY YOUR LIEVOY MATERIAL AND GIVE US YOUR OPINION, AND ALSO HAVE MEXICANS QUESTION SILVIA DURAN VERY CAREFULLY ON THIS POINT. ADVISE.

CIA Withheld Vital Intelligence From WarBy ROBERT S. ALLEN
And PAUL SCOTT

WASHINGTON, Oct. 20.—The Central Intelligence Agency withheld vital intelligence information from the Warren Commission during its investigation of the assassination of President Kennedy.

Despite the commission's written request for all documents that might shed light on the assassination, CIA authorities failed to turn over a national intelligence estimate warning that it is Kremlin policy to remove from public office by assassination Western offi-

cials who actively oppose Soviet policies.

Titled "Soviet Strategic Executive Action," the suppressed CIA document went into the shocking details of how agents of KGB, the Soviet secret police, are trained to do away with Western leaders, including officials in the U.S., and to make their deaths appear due to natural causes.

One of the KGB's newly devised assassination weapons is "a pneumatically operated poison ice atomizer," which leaves no wound or other evidence of the cause of death."

While this deadly weap-

on has yet to be used against any high Western official, hundreds of KGB agents covertly operating outside of Russia have been supplied with this pocket-size, gun, awaiting only orders from Moscow to use it.

The Murder Weapons
HIGHLIGHTS of the suppressed intelligence estimate, which is locked in a security area within the tightly-guarded CIA, are as follows:

"It has been reported that the KGB endeavored to remove the threat to Soviet interests posed by certain members of Western governments, sometimes employing for the

dismissal of such persons from public office, at other times even having them 'eliminated' physically.

"Such activities are known to be undertaken against other types of persons in the West, notably defectors from the U.S.S.R. and from other countries of the Soviet bloc.

"One recently reported assassination technique is to focuse an individual by luring him to a telephone, connected to a high-voltage wire, during a thunderstorm.

"Another involves the use of a pistol which projects a poison gas in

liquid form. This within se autopsy w its use.

Other Suppressed Documents

OTHER CIA intelligence experts say dubious of the co-existence line stress that the Warren Commission's findings might have been different if this CIA estimate and other documents suppressed by the State Department had been available for study.

They point out that the State Department suppressed evidence linking Oswald with one of its employees, who according to security files, "presented strong pro-Soviet views on every question that came up in the Department's U.S.S.R. country committee" while he was a member.

This State Department official's name also appeared in the address book of a suspected Soviet agent who arrived in the U.S. in 1943, according to government files.

Congressional investigators also have been shocked to discover that

the CIA's assassination shown by administration officials to Speaker John McCormack (Mass.), next in line to succeed President Johnson.

While FBI officials warned Speaker McCormack, a dedicated anti-Communist, that he is on the list of Western officials feared by the Kremlin, no CIA authority has shown the No. 2 man in government the CIA report listing these secret Soviet assassination methods.

Instead, McCormack learned about the report only recently from congressional probers who are trying to determine why the document has been suppressed.

The investigators also are trying to determine why the CIA in its pre-assassination report to the State Department on Oswald's trip to Mexico City gave details only of the defector's visit to the Russian embassy and not the Cuban embassy. The CIA did not report the latter visit until after Kennedy's assassination in Dallas.

"Another involves the

use of a pistol which

projects poison gas in

liquid or compressed form. The gas is fatal within seconds and an autopsy would not reveal its use. Non-traceable poisons have been reported which do not take effect until several hours after being administered, thus allowing an assassin to be far from the scene when his victim dies."

Congressional investigators, who have asked that the name of their committee be withheld

for security reasons report that CIA Director John McCone made no mention of this explosive document in his secret testimony before the Warren Commission.

While McCone furnished the commission with the CIA's secret surveillance reports on Leo Harvey Oswald's eight days in Mexico City before the assassination, including details of Oswald's contact with the head KGB agent in the Soviet embassy there, the CIA chief gave no hint of the Kremlin's assassination policy.

- o Memo passed to Mr. Papich of FBI 27 November 1963 with info on photo coverage of embassies and info on KOSTIKOV.

We have photographic coverage during daylight hours on the USSR, Cuban, Czechoslovak and Polish Embassies. Their consulates are located in the embassies and therefore the coverage of the embassies would include coverage of the consulates.

The photographic coverage of the mentioned installations is of a continuous nature during daylight hours, however, weather conditions and other factors affecting any photographic subjects require that the coverage not be considered as complete. Our efforts therefore do not produce photographs useful for identification of all persons who enter or leave such installations.

REPRODUCTION PROHIBITED

After examining all the traces on KOSTIKOV, we are convinced beyond reasonable doubt that he is a staff officer of the KGB.

Contributing to this conclusion are his associates, his movements, his Mexican and other contacts and his cover position, as well as his involvement in the ~~██████████~~ operation.

KOSTIKOV's involvement in [REDACTED] is our only reason to believe that he is connected with the 13th Department. KOSTIKOV was in clandestine contact with [REDACTED] (as definitely confirmed by [REDACTED] photo identification) and arranged [REDACTED] contact in the U.S. with a KGB colleague of KOSTIKOV.
