MEMORANDUM FOR: SDB Chrono

[Handwritten initials]

Mickey Goldsmith (after some phoning back and forth) called and said that the pages on the attached yellow sheets are the ones wanted for use in the Goodpasture depositions. (They constitute some 200 pages).

24. I pointed out that these are samplings from [redacted] of a Station, the basis for asking for it being a five day visit by a man who killed the president. It could not be considered relevant to the Committee's charter, by any stretch of the imagination. I said I would get the message to the desk and have them report back to me what is involved. He wants to have access by COB tomorrow.

In essence they are seeking to change the agreement. SDB
