DISPATCH

19/120/14 JCC DIFE gr

CONFIDENTIAL

Section : 1 PM
Asset : Directorio Revolucionario Estudiantil (DARE)
Case Officer : Harold A. BROWN

STATUS

Despite reports and accusations to the contrary (MWV 177), the Student Revolutionary Directorate is responding to KGBARK guidance and control with increasing flexibility. Their withdrawal from the AUSA's control (MWV 176) and subsequent condemnation of prisoner releases (MWV 179) has been a morale boost for their clandestine organization within PRAGMA as well as a drive to their liberation of KGBARK qualified support: namely, closer scrutiny of funding, limited and professional infiltration of their agents, and denial of support for their independent maritime effort. While some of their fully trained KGBARK infiltration agents are still entering the clock and being, the PRAGMA Executive Committee has turned to the AUSA's project for some imaginative and effective operations.

1. PRAGMA PROJECT:

1. Support and Progress:

- a. Total number of candidates processed to date: 75
- b. Total number assigned: 40 (See attached Status List)
- c. Total assigned during April 1962: 3
- d. Total Financial Support: Substances: \$12,109.00
Operations: 1,515.00

2. Operations:

- a. By 9 April 1962, the radio network by AUSA's directed against the Cuban arms had been improved to 11 countries and totalled about 100 programs per month. (MWV 173)
- b. About 13 April, AUSA's delegates to 15 countries were sent about 65,000 leaflets with a 55-minute and address list for coastal area mailing operation. (MWV 181)
- c. Excerpts from Underwood Press and reports from AUSA's in US and Guyana: have indicated that much of the public interest and agitation for Cuban arms is in Atlantic relations with PRAGMA and govern- ment by AUSA's agents/operatives which began with the demonstration of 10,000 before the presidential palace in January. (MWV 167)

- d. On 21 April 1962, AMBROSIO and 6D reported their theft of a Soviet cell phone at the National Airport in Montevideo. This was turned over to the Montevideo Station contact and WAVE is checking on this currently.
- e. Acting on intercepters proposal (AIR 0425) to send a student agit/prop through night committee in Africa in preparation for forthcoming student congresses, an AMBROSIO team of four is preparing materials, documentation, itinerary, action plan and contacts for this tour. (WAVE 2474, WAVE 3057)
- f. During April, in Venezuela, [redacted] (an AMBROSIO student by Station) and AMBROSIO (requested by station) continued training and organization of Action Democratic youth in guerrilla warfare and anti-communist tactics. This activity is reported under station direction.
- g. In Ecuador, the "Action Anti-Communist Roadblocks" organized by AMBROSIO-23 and 65 is now estimated to total about 5,000 persons with detachments in each major city in the country. The situation into the hinter lands has reached the stage that FBI and WAVE group is being trained and placed in the "Guajana" Indian district.
- h. In Uruguay, the "Movimiento de Liberacion Moral Universitaria" is organized by AMBROSIO-59, its leadership now penetrated all faculties of the University in their struggle against the Communist dominated FZU (Federacion Zonal de Universitarios Uruguayos).

3. Pins and Potential:

- a. Financial support to the AMBROSIO project must be accelerated for operational. There is an obvious lack of proportion between salaries and operational funds, especially in view of their potential as recognized by CIA, Task Force W and AMBROSIO.
- b. AMBROSIO as a station has not recognized the urgency of assignment of case officers for AMBROSIO development alone. All station activities at present are centered to the processing and the operational potential is neglected.
- c. When WAVE is properly staffed and AMBROSIO are full strength, the following potential exists:
 - 1-Third country operations against the denied area for intelligence
 - 2-Third country operations against the denied area for agit/prop
 - 3-Third country operations against the denied area for international cooperation to the CIA.
 - 4-Third country operations against the denied area for agit/prop
 - 5-Third country operations against the denied area for agit/prop
 - 6-Third country operations against the denied area for agit/prop
 - 7-Third country operations against the denied area for agit/prop
 - 8-Third country operations against the denied area for agit/prop
 - 9-Third country operations against the denied area for agit/prop
 - 10-Third country operations against the denied area for agit/prop

YAV

has continuing program of indoctrination at all levels in such country
by a student of a ~~PERU~~ section that has actually suffered Communist
take-over.

Subsequent operations against the desired area and within the host country.

II. AMINTS

1. Support and Processing:

- a. Financial support for AMINT operations in PERU for April consisted of \$7,000.00 sent in through the black market exchange. \$25,000.00 bonds have been vouchers and are awaiting infiltration of AMINT scheduled for 10 May 1952. During April \$725.00 was sent in \$25.00 money orders for funding families of AMINT members in their departure.
- b. AMINT courier a message to Miami requesting a list of electronic supplies for two small radio sets and preparation of electronic detecting devices. AMINT is working on procurement of these items which are to be sent in partly in diplomatic pouch and partly in infiltration operations.
- c. WAGS was processed AMINT-52 as their Zedop who is expected to begin training by the end of April. Subject is in the process of evaluation and LCPUTTER.

2. Operations:

- a. AMINT clandestine teams spent the first week in April pasting black GAE signs in Kivona, Yachoo, Apurimac, to walls and cars.
- b. Also during the first week, a bomb was exploded in a Casagway college setting fire to the auditorium.
- c. During early April a bomb was exploded in front of the Marisano Municipal government offices.
- d. A report from their Action team in Novena Province indicates their last cache of 400 lbs of G-3 plastic is almost exhausted.
- e. During the entire month of April, AMINT clandestine have worked along the north coast of Matanzas collecting operational intelligence for forthcoming supply operations. This information should be available sometime during May and June.
- f. During the third week in April, agit/prog teams pasted GAE signs on automobiles throughout the general greater Havana area.
- g. During the first two weeks, more than 10,000 copies of "Tricolor" the official GAE organ, were printed and distributed in Havana, Matanzas, Pinar del Rio and Oriente.

- h. AGINT prop teams are preparing "Camos" (funding certificates) in small concentrations for internal support.
- i. A courier message requalifying electronic supplies for small radio plants and electronic decoders is currently being studied for procurement by AGINT and will be shipped in by diplomatic pouches and infiltration when procured.
- j. AGINT action teams in northern Matanzas are buying cane and henequen fields using small canoes as time delay igniters.

A. Training:

- a. AGINT-53 entered clandestine tradecraft training in preparation for his PABLOX infiltration scheduled for about 10 May 1962.
- b. 14 Trained AGINTS awaiting infiltration in Miami have been procuring weapons locally and going out into the overgrown area for small arms practice, and holding classes on general theory review of their training on sabotage, demolition and guerrilla warfare.
- c. AGINT insertion section has a secure base at Miller's dock in Marathon where they have their JMWAVE II berthed. They have crew quarters and have fully equipped the vessel with the exception of radar at their own expense. On 26 April the shakedown run was made from base to Gibco Key through Varadero and Cardenas area and return to base. All equipment operated well and AGINT-40, 21, 42, and 43 were on as crew. If WAVE support for their operations is not approved it can be expected that they will make every effort to operate independently and without the vital coordination for such operations.
