

MEMORANDUM FOR THE RECORD:

SUBJECT: Mitchell L. Wer Bell

1. Subject phoned me at ~~222x~~ 2200, 13 August at my home to say that he had recieved a phone call from Joe Marola in Miami who didn't give any details but said that there is much activity in Miami and he expects that an invasion of Cuba is imminent. Wer Bell said he was going to return to ~~his~~ Miami from his home in Powder Springs. He asked if his clearance had come through, and I said it had not.

2. Subject phoned me again at 1315, 26 August from Miami. He said that things are quiet temporarily, but that developments are continuing in the Dominican Republic. He said that his public relations prospects in the DR are not sufficiently bright to warrant his investing money on a trip but that he would like to go if CIA would foot the bill. I told him his clearance had not yet been received, and I could not say when it would come through. He said he is thinking of going to Atlanta for the week end and I told him there was no reason not to since I could not predict a date for his clearance. He said that recruiting for an anti-Castro force is going on in Miami, which is old news.
