ACTION REQUIRED - REFERENCES

Reference: see paragraph 3 below.

1. ALCB/1 reported on two CIA officers, Ulises Schar and Juan Carlor, who were recalled from Chile at the same time due to a quarrel between them. In later reports ALCB/1 furnished physical descriptions and biographic data on the individuals involved.

2. A query of the CUI machine file revealed several possibilities. Additional research in the personality files of the individual is shown to Cuban diplomats who may or may not be the unknown CIA officers. The two individuals are Orlando GARCERAN Gutierrez 201-23002 and Rafael GARCERAN Gutierrez 201-23074. Both men fit the general description and biographic data provided by ALCB/1 in his report. They were both recalled from Chile by the Cubans in December 1962 at the same time two other Cuban diplomats were sent home.

3. We are forwarding photographs of the two men and request they be shown to ALCB/1 for possible identification. There is no record in Headquarters that ALCB/1 has ever seen these photos. They were not in the CUI photo file.
