Project LIENVOY MI/Mexico

(Non-official liaison and audio operation)

1. FI/INT files contain 295 positive information disseminations provided wholly or in part by Project LIENVOY during the 13 months - 1 January 1963 through January 1964 (FI/INT's February 1963 assessment of the production was for calendar year 1962). Of the 295, there were 177 CS and 118 TDCS disseminations reporting information of unique authenticity on various subjects of intelligence interest. LIENVOY's most valuable reporting appears to be that concerning Communist activity in its various aspects - (the Mexican Communist Party (PCM) and its pro-Chinese faction; the Popular Socialist Party (PPS) and its leader Vicente LOPEZ BARRIDO Toledano, with his apparently close ties with the Mexican government and with Chinese and Russian Communists; the anti-US, pro-Cuba National Liberation Movement (MLN) and its leader former Mexican president, General Lazaro GARDENAS del Rio; and the activities and propaganda efforts of Chinese and Cuban Communists. There was also reporting on the travel via Mexico of individuals from other countries of Latin America to Cuba or to other Sino-Soviet Bloc countries; economic transactions between [redacted] and Cuba; discontent among [redacted] groups; and the transmittal of a 57-page [redacted] document on Mexico's economic and social situation.

2. LIENVOY has provided a significant volume of reliable intelligence information which is of moderate and, in some categories, of considerable and substantial value. Although some types of priority information such as that dealing with the inner circles of [redacted] has not been reported, FI/INT considers LIENVOY an excellent project. 24

RENEWAL IS REQUESTED.
