MEMORANDUM FOR THE FILES

October 24, 1960

Subject: Representative of Manuel RAY to Professional Groups

Today I was introduced to Enrique Miras (Enrique) Rodriguez by a person whom I have known for several years and is close to Manuel Ray. Quiñones (dob May 20, 1911, Habana) is a member of an architectural firm with interests in Puerto Rico. He makes frequent business trips to Puerto Rico. (His passport turns out frequent entries to the United States at Miami.) My subject explained that Quiñones is a member of the Ray organization and is functioning as the representative of the group to various professional organizations in Habana. He also indicated that Quiñones serves as a courier to Miami. He recently took the text of the manifesto which Ray will shortly put out to Karl GILMS in Miami and returned with his observations.
