THIS IS UNEVALUATED INFORMATION. SOURCE GRADINGS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE.

SOURCE: A member of a group of Cuban emigres trained in the techniques of information collection. The group has provided useful reports for about three years. This information was obtained from Marcos Rodriguez Menendez, a member of the MDC.

1. The Movimiento Democrata Cristiano (MDC, Christian Democratic Movement) was scheduled to ship one 200-watt transmitter to its base in the Dominican Republic during the week of 21 - 27 June 1964. The transmitter would operate in the 20-40-80 meter band on single side band-voice and/or continuous wave.
2. On 20 June 1964 an identical transmitter was installed at an unidentified home in Miami, which was to serve as a communications center for all future transmissions with the MDC's base in the Dominican Republic as well as with all of the group's boats. Angel Vega Guillen, a radio operator for the MDC, installed the equipment and antennas.
