...read and fix this boat. This group has not joined the C.F.C.

Comandante Revolucionario del Pueblo - CRP ✓

These people are lagging behind other groups. We don't have a qualified military type to deal with. We are dealing through \_\_\_\_\_.

We intend to get four people of their's by 15th of December. We did support any operation where our requirements re reception points etc. would permit.

~~XXXXXXXXXXXX~~ We turned them down last week because they had a bad boat.

Recruits

This group proposed to put in a team to establish contact with internal assets. Group without communications to inside and have operators who refuse to go in blind. This group has not been effective since AMDIP-3 left. This operation could go within six weeks if we had case officer time.

AMHRE Group

WAYE 8659 - Following this we are planning one in the Santa Clara region - copper mine there extreme west end of island. Critical communications.

SAUTA

Sabotage plan submitted by the FORD on the Sauta radio station sent up north already. Sent one man in AXMC AMICE-10 for collection of the necessary information on the area. Plan still in effect.

Plan submitted by the BRE - Assault SOMIATC prison. Only considered as possible within general plan of overall liberation but still under consideration. Not implemented.

Plan for support of clandestine guerrilla forces in volume within the area submitted North. WAVA had no indication from up north re approval or not.

981

Plan which was set up for the defection of three naval units of Santiago de Cuba with main objective of continued action along coast before retreating to nearest port submitted to DFL have not considered it and have not sent up north.

It would be better to return to general terms, but can start over again in next few weeks. There is a possibility of a new operation.

All of these people we are planning general sabotage missions - attack electric power, communication, transportation and material delivery equipment wherever and whenever possible. All are being trained along these lines.

### Maritime

Motor vessel XI VILARO next six weeks this vessel will begin with unit commercial training. After at least one cover voyage used operationally. Can be used with other vessels to supply long range craft. Very slow and we use cautiously. We don't have vessel capability for reaching south coast. TEJANA could do this within four weeks. Processing purchase of boat from other side. (Referring to Scotland).

### CDI Team

Team of four people presently capable of maritime recon and operations.

### Communications

Presently have six people in training two people will become instructors and four operational operators. Will have three radios in three weeks, one in three months. ~~XXXXXXXXXXXX~~

For ~~SKK~~ the future we have 13 candidates all of them have had some training as others move out they will be moved in. Spotted 7 basic candidates primarily from these groups. With our present staff capable of training six people at one time observing compartmentation. With additional indigenous instructors 10 at any one time with observing compartmentation.

The proposals have not received the support we want because of shortage of staff. From AMT, MRC, MRC OR, AMBABLE, and Peacale, AMB, and GPC. Groups have come to use offering no boats. There are few boats but they are not very good on basis they are unoperated although we are interested. More than 5% of these independent operations that were successful. They will send their boats out in any weather and then want us to pay for repairs. Security problem of loading boats. It is in the realm of possibility they would be supported in future, but not until capable crews and good boats.

Next tentative operation proposed by AMBUTLER-1. Five to six fishermen who use boats here (Miami), Cuban vessels, which can go in and out. We are investigating this. We have run one operation with this group. It looks good and we are going to develop.

Another independent, AMBUTLER-1, he has contact with OSVALDO RAMIREZ in Macaribray who desires support. We have given him guidelines for operations. Claims he has 8-10 men with training and have infiltrated several staff people. We are trying to bring him back to group from which he came.

GARCIA ERITO - This group has tested radio operation here and forty men in Las Villas. Question of time and lack of communications with internal assets.

14-00000  
... , former AMCLATTER, wonderful man, experienced  
along Comagney coast. Good idea on establishment of mangrove caching  
facility. similar to proposal of UR. They are good group so we're looking  
into use his know how.

20th of May Group - Have made request for support. Off-shoot of 30th of  
November Group. As a splinter of this group, being advised to rejoin their  
parent group. Exploring possibility of supporting them if they cannot rejoin  
parent. Their plans come to us through AMCLATTER-1.

MRPC - Requests are same as from other groups, and this is splinter of  
MRR. We have told them to rejoin parent and provide them general guidelines.

... who want.  
Independent group of camp trainers - 40 men ~~xxx~~ supplies and transportation  
to Oriente. No communications and willing to sacrifice themselves in GW.  
Given guidelines to forget about GW and get resistance plan. Their spokesman  
is Fred Gaudle.

Independent Group of JUAN MESA - formerly of MDC. Generally collected about  
four independent boats which he operates as coordinator. Running rescue operations  
and wants support. For instance, wants support operation to exfiltrate eight  
children from west coast. Seeking support for an Oriente infiltration  
team headed by PMPN LOPEZ and 13 men. Turned him down. ~~xxx~~ Don't  
have capability to deliver.

Independent sub group headed by ALDO VERA SERAFIN wants training and support of formal sub group. Claims he will hit targets in Havana area. We have not even talked to him on basis of poor CI background. Spokesman is Conte Aguero.

Independent sub group of OSCAR DIAZ wants <sup>same</sup> as previous group. Claim they can hit targets throughout Cuba. Also associated with Conte Aguero. WAVE experience with this man is such that we don't look kindly on this request. As member of FDR military he made things difficult.

Independent group - JULIAN DIAZ FERNANDEZ - Claims to have 300 constitutional army men inside. Radio out here. Willing to go back. WAVE exploring this. Will try to tie him to another group, but if unsuccessful and find his claims valid plan to support him.

• ORLANDO SOUTO - proposes to harass a CTC rally in Guanquillo Stadium in Miramar tonight by firing 75 mm high-velocity explosive shells into stadium from off shore. Told him no dice.

In addition, the CTC plan at Headquarters hand carried by Bob Davis and given to <sup>13 dice</sup> [redacted] should be included in report. We would like to have it back soon.

One other operation - AMBANTY-1 - This man has 500 people in Pinar del Rio. He is being trained and should go back in December
