SUBJECT: Background Information on the Combined Resistance Effort being made inside Cuba/Operational/JGEP

1. This dispatch, with attached memorandum, mentioned in the reference gives the background to the combined resistance effort being made inside Cuba. Headquarters has talked to AMULESS-1, AMCOAX-1, OMAR and MUSTY (number one and two respectively in the internal RSR), and RUFIND the new external coordinator for the RSP, all within the past month. They all seem to be of the opinion that a united resistance can be (and must be) achieved with one overall command channel inside Cuba dealing directly with KUBARK via compartmented communication channels.

2. In addition, they feel the presence of individuals such as "MARCOS", "LUCAS", SIMONE", and "JUSTO" falsely representing the groups add nothing but confusion and disunity to this combined resistance effort. Consequently, it seems to be the consensus of the working groups inside Cuba that these individuals should be removed to the States where they cannot interfere with the internal resistance effort, or they should be forced to leave asylum and again actively join the resistance inside Cuba.
