Subject's operational simultant of the impossible for him to attain to actually mornisments. Thus, his your roll achievements are not by essence of the spectageler variety.

Subject's reporting has been continuatory and continue to be expicus. In could, however, involve improve the relativity of the leads provided the station and make more of an educate to "digest" the information contained in his reports.

Although Subject has, at present, no conservisory function, he has repeatedly requested such a responsibility. In is exhebit with operational espenses and has conseled good occurity.

During the ported under system, additional effects have been made to make full use of subject's petential and integrate him further in the work of the station component with which he works. He is a particularly valuable asset for the Station programs directed against the local Millians and Millians bargats.

from the Organization. His continued previous at the Station definitely appears to be warrented for a smillete or period to reach approximation constraint the level of the manned performance ever a contentation of period than that reflected by the proof.

On belonce, we are planted that the ellipse has responded so well to greater case efficer direction and that is her undertailed domewhat made appreading effects to expend his up to all greaters in immediate proximary to the primary Station tergets. This is four the being many takens to bear on his operational activity: he has observely shout Massah, a solid end explicitable and a weak not be of a costs in the less community. Memorialess, it will require tablifical the state priors these community. Memorialess, it will require tablifical the state priors these community depth, solvet those which appear to be a conditionity viable, and pursue them actively either to the point of react insent by another officer or elimination from further development, for tentiever reason.

In cam, in spits of the recognized of the commendable improvement in this officer's performance during the period under poview, the reviewer submits that the letter grade for specific during 2 and 4 would more properly have been a "P", and that the everall rading, it this point, would more accurately be set at a level between "P" and "S", probably closer to the former than the latter.

This reviewing comment has been read by the efficies who prepared the Fitness Report.

This employee requires a minimum of detailed operational supervision; it is necessary in specific cases only to indicate the operational or informational objectives.
From the point of view of administrative support, als attention to detail and mediculousness reduce the problems of his support by the Station
to a minimum.
This collayer uses the continuously, and his facility is such as to permit him to handle himself constituting in a broad magging
complex technical subjects. We had in addition undertaken appointined language againing to develop this espability further. Wis operational re-
porting is excellent both with regard to elerity and pertindice.
In the immediate future he will be assigned cause work, for the most part in fields where it will complement, and be complemented by, his in-
dependent operational activities

to the development of human relations. His forte is therefore more in the field of spotting and making operational contacts than in that of more than short-range operational development. Subject's operational situation makes it impossible for him to attempt recruitments. Thus, his very real achievements are not by essence of the spectacular variety.

Subject's reporting has been satisfactory and continue to be copious. He could, however, further improve the selectivity of the leads provided the Station and make more of an effort to "digest" the information contained in his reports.

Although Subject has, at present, no supervisory function, he has repeatedly requested such a responsibility. He is careful with operational expenses and has exercised good security.

During the period under review, additional efforts have been made to make full use of Subject's potential and integrate him further in the work of the station component with which he works. He is a particularly valuable asset for the Station programs directed against the local MHHARSH and TPFAST targets.

Section D (continued)

substantial. In a word, is it worth it? We do not yet know, although our initial impressions are favorable.

On the fitness report itself, this rater would have preferred an "S" rating for specific duty number one; Subject may ultimately deserve an "O", but it does not seem warranted at the present time. Moreover, I believe the overall rating would more properly have been in the higher range of the "P" category, rather than "S", but it is of course a subjective judgment of the rating officer, who is more intimately and directly involved with Subject on a frequent basis.

In sum, is superb, and only time will reveal to what extent the requirements permit a full measure on behalf of the Organization. We are following this aspect closely and will be commenting upon it subsequently as we gain experience and knowledge.

from the Organization, his continued presence at this Station definitely appears to be warranted for a sufficient period to reach more definite conclusions concerning the level of sustained performance over a somewhat longer period than that reflected by this report.

On balance, w	e are pleased that this officer has a	responded so well to

In sum, in spite of the recognized and commendable improvement in this officer's performance during the period under review, the reviewer submits that the letter grade for specific duties 2 and 4 would more properly have been a "P", and that the overall rating, at this point, would more accurately be set at a level between "P" and "S", probably closer to the former than the latter.

This reviewing comment has been read by the officers who prepared the Fitness Report.

ADDENDUM, Form 45 (Fitness Report), for period March 67-March 68.

Section D

As the individual being rated, I would like to add some remarks to those prepared by the rating officer.

sucast

3. It is difficult to place in the proper perspective the contribution of this senior to station operations On the one hand, Subject has established superb in the scientific and technical field which should have afforded him virtually unlimited access to persons of interest to us, both soviet and potential access agents. In evaluating the manner in which the employee set up and managed I would tend to agree with his comments to the fitness report on the managerial
demands on him although these convents are somewhat everdrawn.
The principal difficulty has been the time it has taken to relate the to the specific operational requirements of the Station. We have not received from CASASIN as many leads and assessment reports to persons of operational interest in the SAT field as we think he could have produced. It may be that the earlier listing of the project (viewed as a regional fundertaking) contributed to this.
Recently we have noted significant improvement in that we have received responses to requests we have made for assessment and development of potential access agents. We hope, therefore, that this last year of CNSASH's stay will be the most productive ever. It is unfortunate that the must end because of the decisions over which we had no control.

/s/ David E. Nurphy

His command of spoken, written, and technical is excellent. From the point of view of supervision, this employee in his present position re- quires guidance only insofar as to identify specific targets and for him to protect quires guidance only insofar as to identify specific targets and for him to protect himself in situations where he does not have, by virtue of his not having access to himself in situations where he does not have, by virtue of his not having access to himself in situations where he does not have, by virtue of his not having access to the periodic provision of policy and operational directives. other than the periodic provision of policy and operational directives. This employee has always been conscious and punctillious in his preparation of
	operational and administrative reports, increased by the necessity for minimizing
	the risks
	Other than the funds for operational activities, this employee currently has no responsibility for the programming and use of personnel, space, equipment, and funds.
-	
-	His dedication
L	to and enthusiasm for accepting the challenge of this assignment, and his willingness to continue on in it, deserve particular mention, particularly since he would perhaps justifiably feel that his present assignment may leave him outside the mainstream of competitive organization progression. This employee's health and family situations leave nothing to be desired, as his proven mobility in the execution of operational assignments attests.

*(Section B) - No special recognition of Subject's "Outstanding" overall performance is being requested at this time.

SECTION C NAHRATIVE COMMENTS

During the reporting period he has developed a wide circle of contacts in the scientific and journalistic fields and applies a long background in a variety of assignments in KUDOVE to the determination and assessment of a variety of assignments in KUDOVE to the determination and assessment of a variety of assignments in KUDOVE to the determination and assessment of a variety of assignments in KUDOVE to the determination and assessment of a variety of assignments in KUDOVE to the determination and assessment of

This employee requires a minimum of detailed operational supervision; it is necessary in specific cases only to indicate the operational or informational objectives.

From the point of view of administrative support, his attention to detail and meticulousness reduce the problems of his support by the Station to a minimum.

This employee uses the language continuously, and his facility is such as to permit him to handle himself excellently in a broad range of complex technical subjects. He has in addition undertaken specialized language training to develop this capability further. His operational reporting is excellent both with regard to clarity and pertinence.

In the immediate future he will be assigned case work, for the most part in fields where it will complement, and be complemented by, his independent operational activities

In most respects, this officer is one of the heat I have known in this agency. He has a broad and deep knowledge of his target area, as well his "host" country; an excellent and proven degree of operational "know-how"; the ability to write and speak lucidly and effectively and with apparent ease; and a very high degree of motivation and devotion to duty. He can be expected to could have his dynamic and imaginative pursuit of a most difficult target. It is my opinion that this officer has great potential and is ready for increased responsibilities which would involve the promotion for which he has been recommended. As for training, a good managerial course might belp to bring into even sharper focus his many talents.

This report has been prepared in accordance with F E Division standards which recognize the principle of rating the individual against the group. Thus an 'average' rating reflects an entirely satisfactory performance.

Subject is an exceedingly well-equipped operations officer. He is nature, intelligent, has a thorough background in operations in his area and the ability to grow in his job. His operational planning and execution is usually impeccable. He has the loyalty of his subordinates and the respect of his equals and supervisors. He is particularly effective in dealing in the liaison field where his good sense and disinterest in "fighting the problem" produces a maximum of cooperation and good will. If he has any minor fault as a supervisor, it is not in impatience with his subordinates, as reflected in previous evaluations, but in an occasional unwillingness to say no to them.

12. In the respect is this feason's performance on present Job west neticeated good or outstanding? Derformance was noticeably outstanding with respect to his thorough know- ledge of every activity of the Branch. He was in position to assume direction of Branch activities at any time. He also kept himself thoroughly briefed on Division policies and
planning in order to give timely instruction and guidance to the Branch overseas stations.
13. ON WHAT ASPECT OF PERFORMANCE SHOULD THIS PERSON CONCENTRATE EFFORT FOR SELF IMPROVEMENT? has a very thorough background in two (2) languages,
would benefit substantially by learning the Russian language. He is meticulous with respect to his attention to details, sometimes to the point of concoaling the broader picture from his view. It would be well for to direct his attention to the broad score of Branch activities rather than to concentrate on its details.
is fully qualified to assume the duties of the chief SR Division representa- tive at a field station. In order to assume this responsibility in the most efficient manner, it is recommended that serve a minimum period of time of approximate ly six (6) months as the assistant to the present chief of the field station.
15. ARE THERE OTHER DUTIES WHICH BETTER SUIT THIS PERSON'S QUALIFICATIONS? (Recommend appropriate reessignment, If
could serve effectively in a staff function for either FI or PP activities. This does not mean, however, that his present duties are not better suited to his qualifications.
has already been recommended for overseas assignment in the For East during the bast year. He has area knowledge and command of the language, having served previously with the United States Army. His duties at Headquarters have been so pressing that his departure for overseas assignment is being delayed until an adequate replacement may be trained.

SUBJECT: - Recommendation for Promotion

has been under my supervision as Deputy and Case Officer by approximately fifteen months. Based on the knowledge of the approximately fifteen months. Based on the knowledge of the same as an individual gained during this period and upon his actual performance, I recommend that he be entered for consideration on the SR Division GS-lk to GS-15 promotion list at this time - June 1957. The slot and job which he now occupies, Chief, Soviet Branch, is, of course, adequate to accommodate such a promotion.

notably versatile during this period. He has engaged primarily in liaison and has been personally effective in terms of results achieved almost daily, in terms of reports, operational data, and joint enterprise; while, overall, he has established enduring professional relationships from which the organization as a whole should benefit for some time to come. In addition, owing in large part to unique personal talents, linguistic and otherwise, has handled a number of unilateral cases most effectively. In the office, too, as well as in face-to-face operational situations, with written word as evidenced by the execut of general and particular correspondence which he has initiated, and he knows the organizational "drill" intimately and from may back. Thus, I feel that he is qualified for the recommended promotion by ability and experience in both the internal and external aspects of the profession.

3. Relative to the more personal characteristics involved in the term managerial ability (duffments are necessarily more subjective but here, too, I consider to be qualified in maturity, in judgment, and in experience. He would most certainly be a supervisor who could perform all the chores or handle all the situations which he would be calling upon subordinates to take care of, in itself, the beginning of any good supervisory relationship. In actual fact, he has had considerable experience in this regard already and the principal shortcoming I have noticed is a tendency to "carry" others by an extension of his own industry. It is not without his difficulties in the area of personal relationships. He is a purist at times and manifestly impatient in certain human situations where a shrug of the shoulders would be the

best reply. These characteristics do not always make for the best personal relations but are frequently obviated by intellect and above all are correctable and are being corrected.

proven abilities dominate his age, the only factor militating against a promotion at this time. It is therefore my sincere recommendation that a promotion recommendation be forwarded to Headquarters for consideration in the current mid-year lists.

REFERENCE: FJTW-11531 (RIEAT) dated 11 Oct 1957

1. In line with paragraph 2 of Reference, after a period of six menths we submitted an additional promotion fitness report on dated 28 May 1958. Instauch as under cover of dated 28 May 1958. Instauch as Eaker was then at Headquarters on TDY, we requested that he review this fitness report and assumed that in doing so he would also discuss with Maury promotion, which both he and Nelson felt was to be strongly recommended.

2. Baker was, however, not shown this fitness report at Headquarters, nor did he have the opportunity to discuss promotion with Manry. In reviewing our records we are now concerned at the possibility of some administrative slip-up and would appreciate a word of advice as to how this promotion action is proceeding. We would like to reiterate that we now have not the slightest hesitation in recommending for promotion and find that the fitness report submitted with still reflects our current high appreciation of his abilities and progress.

MEMORANDUM FOR: Chairman, CS Career Service Board

SUBJECT

Nominations for Promotion to GS-15

REFERENCE

Memorandum dated 14 May 1958 from Secretary, CS Career Service Board

1. After reviewing G5-14 employees assigned to the
SR Division, I wish to again recommend the promotion of
Chief, Soviet Branch, to GS-15.
I concur also in the attached recommendation for the pro-
motion of prepared by the Chief of Base,
Berlin.
2. The Chief of Station, and I recommended
s promotion in December 1959. This earlier
recommendation presented the personal qualities of Mr.
I wish simply to point out at this time that
since early 1954, has more than fully dis-
charged responsibilities at the GS-15 level. I believe
that it is definitely time to elevate him to the level at
which he has been performing more than satisfactorily for
over 5% years.

### DEPARTMENT OF THE ARMY OFFICE OF THE ASSISTANT CHIEF OF STAFF, G-2, INTELLIGENCE WASHINGTON 25, D. C.

3 DEC 1954

SUBJECT: Letter of Appreciation

TO:

Director of Central Intelligence Washington 25, D. C. ATTN: Deputy Director of Plans

1. I have received a letter from Major Heneral boniface Campbell, Commanding General, Army Intelligence Center, expressing appreciation for a presentation by Mr. at Fort Holakird in October 1954. Mr. also arranged for presentations by two other speakers at the Army Intelligence Center. A copy of General Campbell's letter is attached.

2. The remarks contained in this letter are a source of real satisfaction to me, and I take this opportunity to add my appreciation to that expressed by General Campbell. fatting G. Trudere
