MICROFILM

SUBJECT DEMOLAT/KUDESK/REDCOAT - Dr. Roscoe WHITE

ACTION REQUIRED - REFERENCES
REF: [redacted] 4330, 17 Aug 1965

1. Station will be pleased to comply with the referenced request; before doing so, however, we would like to be certain that all available information on Dr. White and Dr. Renninger has been collated and evaluated. Specifically, the writer recalls having reported in considerable detail on the contacts with William H. Martin, providing substantially more information than contained in the attachment to reference.
2. It is requested that Wallace A. DEMOLAT be consulted on this problem, since he is in the best position to locate the extensive prior reporting on Martin's maneuvers in the USSR; moreover, there was additional information involving Martin's approaches to Americans in Leningrad, all of which should be melded into the background of Renninger and White as reporters on Martin.
3. Since much information is already in hand, we would appreciate knowing more specifically what is desired of Dr. White; we presume that there is no desire to duplicate ground which has already been covered in considerable depth with him while he was still in the USSR (and parenthetically, information in the vein of general assessment data has also been reported).
4. It is recommended that after all available data on the contacts with Martin have been reviewed at Headquarters, an appropriate briefing guide, keyed to the lacunae in previous reporting and covering any additional information that may be desired from Dr. White, be prepared for the Station's interview. Upon receipt of your further guidance, either RILANDER or SHIVELL will interview Dr. White.
