

Report on

12/10/64

After reading the Report & comment of the other teacher I felt obliged to write this note.

is very self-conscious about being an epileptic and may not have confided in Mrs. Sinclair — but many times when he is just sitting staring — or if he appears to be asleep he is suffering a mild attack.

In Beginning English he does very well and has shown an avid desire to learn. He converses with me in English frequently.

- His test grades are as follows:
- Gates Read Comp. (completely unfamiliar) — Grade level 4.8
- Gates & Innes Aural Comp. Form C — 60%
- Gates & Innes Structure — Form C — 36%

He was not very well this day — arrived late for the test and did not finish.
