SUBJECT LYVOUR PERJUMER Operational - Possible Utilization of AMICE-14 in Student Activities in Chile		
ACTION REQUIRED - REFERENCES		
<p>Reference: UFGA-17794 dtd 23 Sept 1964</p> <p>1. AMICE-14, as described in Reference, definitely appears uniquely qualified, and with his previous training, should be considered a highly competent agent for clandestine activities. The Station would more than welcome A-14 as an agent of the Station if it appeared that there was any possibility of using him in student activities as described in Reference.</p> <p>2. The Station has no going operations in the student field in which A-14 could be used at this time. Apart from the (PUBANKRUPT Project (mainly concerned with Christian Democratic Youth) and (FUBIAS-4's dealings with dissident elements of the Radical Youth, the Station has several developing contacts in democratic type student leaders. Since A-14 would obviously be unsuited for infiltrating Communist or pro-Castro groups, the Station believes any prospects for student type operations involving A-14 would probably have to start from scratch and be a developmental type operation. Given A-14's necessity for careful handling, per paragraph 7 of attachment 4 of Reference, the Station feels that A-14 might reject or be discontent with developing student operations. Being a man of action, even the general Chilean political climate and operational conditions would probably not appeal to A-14.</p> <p>3. Station agrees with the statement in paragraph 9 of attachment 4 of Reference "the biggest challenge is to find a way to continue to utilize his talents". While the Station recognizes the fact that A-14 would be an asset for the Station, we are unable to place him in a going student operation. Any developmental type operation involving A-14 would have to be on a trial basis with no positive guarantee of its success or continuance. Only on this basis could the Station justify the assignment of A-14 to </p>
