Reference is made to the CIRA-0371-74 dated 27 June 1974 attached.

The matter was referred to the undersigned because of possible "Watergate" implications. I reviewed all the files; the files of the staff employees concerned reveal no "Watergate" connection whatsoever. St. George, a writer, has of course made recent allegations to the effect that the agency had prior knowledge of Watergate - these charges are without foundation and the agency has responded to them apparently to the ~~total~~ satisfaction of the various government activities concerned. The files of the former staffers are being declassified however because of St. George's previous charges vis a vis the agency. This was discussed with and approved by the D.D.S./P.S. on 15 July 1974.
