Re: Raul Diaz Arguelles (201-269362)

We have received information to the effect that the above subject is presently in refuge in the Brazilian Embassy in Havana (possibly the Scandinavian Embassy). According to the information this action by Diaz appears to be a cover up in order to get out of Cuba to carry on a phase of ~~front~~ activity. Diaz apparently is the head of Intelligence (Technical) Department of Investigations and in his capacity he could leave Cuba at any time without having to request "safe conduct" through an embassy.

Raul Diaz Arguelles is believed to be in complete charge of any activity as contemplated by Aldo Pedro Margolles-Duenas, which involves a plot to assassinate the President of the United States.

The subject is described as Raul Jaime Diaz Arguelles-Garcia; white; male; Cuban; DOB 9-11-37, Havana, Cuba; 5-11; 195; brown hair; brown eyes; light complexion; FBI No. 381958-3; INS No. ALO 185 191.

Information received indicates the subject is responsible for assassinations during the Batista regime; is a known terrorist; and is capable in the use of explosive bombs and automatic weapons. He is also believed to have directed assassinations in the past from somewhere in Mexico.

ZERO

Arguelles is presently the subject of a ZERO lookout throughout all strategic points of entry, as well as Aldo Pedro Margolles-Duenas.

It is requested you use your facilities in assisting this Service in learning the current whereabouts of these two subjects.

Of interest to your Department at this time may be the information received which indicates that Che Guevarra is currently in the process of infiltrating the police departments in all the South American countries. Available information indicates Guevarra already exercises some control over the Judicial Police in Mexico City.
