MEMORANDUM FOR: The Review Staff
ATTENTION: Mr. Walter Elder
VIA: SA/DDO (John Waller)
SUBJECT: Documentation of Castro Assassination Plots
REFERENCE: Review Staff 75/1696

1. Per referent request, we have conducted a review of our files on incidents and individuals mentioned in the report given by Fidel Castro to Senator McGovern. This memorandum contains the results of our traces on the alleged assassination plots and the Cuban individuals mentioned in the report. It must be borne in mind that our files are keyed primarily to names of individuals and not by incidents or plots, thereby making the retrieval process difficult. No project file bearing specifically on the subject of assassination has been located. Nonetheless, what follows is keyed to the chronological order of the plots as described in Castro's report.

A. Mid 1960. Nothing has been located in records which ties CIA to this incident.

(1) Armando CUBRIA Ramos. According to CIA traces, CUBRIA was a long-time sabotage expert and member of Castro's 26th of July Movement until 1960, when he apparently turned on Castro. He was arrested in 1960 for organizing underground activity against the Castro regime and was sentenced to 30 years imprisonment for conspiracy. There is no record of CIA contact with CUBRIA.

(2) Mario TAULER Sague. He was arrested on 12 July 1960 in Havana where he was caught unloading arms clandestinely introduced into Cuba. There is no record of CIA contact with him.

B. March 1961. A number of the Cubans mentioned in the incident were indeed employed by this Agency in the fields of intelligence collection and paramilitary activities against Cuba. There is nothing in the files reviewed to substantiate that their mission was to assassinate Castro. Some of those mentioned were in fact involved in clandestine infiltration into Cuba for the purposes of gathering intelligence and carrying out paramilitary activities in a March 1961 mission.

(1) Humberto SORI Marin. There is a 201 file on the individual. In November 1960 SORI, a disaffected Cuban government employee, contacted a Cuban working on our behalf and advised him of his desire to work against the Castro government. On 1 December 1960 SORI was placed under house arrest by the Cuban Government but escaped with the assistance of unidentified friends on 21 December 1960. He was exfiltrated to the Miami area, without CIA involvement, on 19 February 1961. He was met by a CIA case officer on 2 March 1961 and debriefed on his activities in Cuba. A Provisional Operational Approval (POA) was requested for his use as an intelligence source and subsequently granted in March 1961. He was met again by a CIA case officer on 5 March 1961. He returned to Cuba clandestinely on or about 11 March 1961 without CIA assistance. Shortly after his return to Cuba he was arrested and taken to La Cabana Prison on 11 April 1961. On 20 April 1961 he was executed by the Cuban militia.

(2) Rogelio GONZALEZ Corcho. There is a 201 file on the individual. Our files indicate that he was Secretary General of the Revolutionary Recuperation Movement (MRR) in May 1960. He was granted a POA for contact and assessment on 1 July 1960. In August 1960 he was met by a CIA case officer in the Washington area to be debriefed. He was subsequently trained by CIA in radio communications and paramilitary operations. He was infiltrated into Cuba on 6 September 1960 as part of a CIA paramilitary operation. He was provided with funds, arms, and explosives. In March 1961 he was instructed to step up paramilitary operations in Northern Cuba. He was captured on or about 19 March 1961 and was executed 20 April 1961 by Cuban militiamen at La Cabana Prison.

(3) Manuel Lorenzo PUIG Miyar. There is a 201 file on the individual. He was granted a POA for use in paramilitary operations on 29 November 1960. On or about 20 March 1961 he was captured and executed on 18 April 1961.

(3) Francisco BLANCO de los Cuetos. Our only trace indicates that Francisco BLANCO was arrested by the Cuban G-2 after having been denounced by Pierre Juan DIEZ de Ure after his arrest, noted above.

M. March 1964. CIA had an operational relationship with both of the persons mentioned in the report at the time of the incident. In 1963 and 1964 both persons made proposals to CIA to assassinate Castro but in each instance they were told that CIA and the USG did not condone such attempts and no commitments were made.

(1) Mario SALABARRIA Aguiar. There is a 201 file on the individual. A POA was requested on subject for use as an operational support asset in an intelligence gathering net inside Cuba. We did not deal with him directly but communicated through third parties. In early March 1964 subject proposed an operation to his contact to assassinate Castro and asked for pistols, a submachine gun equipped with a silencer, several .30 caliber machine guns, and some dynamite. CIA immediately informed him that the USG did not condone such attempts and no commitments were made to assist him.

N. Mid 1964. Some of those mentioned in the report were indeed working for CIA at the time of their arrest. Two of the subjects reportedly tried to poison Castro but there is no indication in the files reviewed that the assigned mission of the group was to assassinate Castro or that the poison was provided by CIA.

(3) ^{05,08} [redacted] [redacted] There is a 201 file on the individual. A POA was granted for her use as a source of intelligence in her brother's net on 17 March 1961. However she was terminated on 18 November 1963 due to insufficient intelligence production and lack of operational security.⁰⁵ On or about 7 September 1964 it was reported that [redacted] was under suspicion in connection with an aborted assassination attempt on Castro. However [redacted] was not arrested until 21 January 1965 along with her brother.⁰⁵ At that time she was accused of counterrevolutionary activities and attempted assassination of Castro. A separate report indicates that the Cuban internal security organs had allegedly found poisonous substances in her residence.⁰⁵ There is nothing in the files reviewed to indicate that [redacted] was directed by CIA to assassinate Castro or any record to indicate that the poisons were provided by CIA.

R. 1965. Rolando CUBELA Secades et al. CUBELA's 201 file (14 volumes) is currently under intensive review by a staff member of the SSC and therefore treatment of CIA relationship to CUBELA and the others mentioned in the 1965 incident will not be included in this memorandum. Once the SSC staff member has concluded his review and selected key documents, we will screen and forward them to the Review Staff separately.

SECRET

S. Mid 1965 and May 1966. While some of the individuals were considered for use by this and other USG agencies, they were not ultimately employed by CIA and available records indicate we were not connected with them at the time the incidents occurred.

(1) Antonio CUÉSTA del Valle. There is a 201 file on the individual. He was considered for use by CIA in early 1961 as a crewman for a CIA vessel involved in maritime operations. The file does not reveal whether he was actually used but all interest in him was terminated in mid 1961. He was subsequently reported to be a leader of "Comandos L", a Miami-based anti-Castro exile organization. He was captured in May 1966 after being wounded when his group attempted to land a team of infiltrators near Havana. CIA had no connection with the operation and the file does not confirm that he was involved in an assassination attempt against Castro.

(2) Eugenio Enrique ZALDIVAR Cadenas. There is a 201 file on the individual, indicating an interest in him in April 1966 by another USG agency. His file was closed on 7 June 1966. He is identified as a member of "Comandos L". No further information is available.

(3) Sandelio Herminio DIAZ Garcia. There is a 201 file on the individual. The file was opened in September 1957 because of his involvement with Honduran and Costa Rican revolutionary activities. He was debriefed by a CIA case officer in September 1963 as a Cuban refugee. At that time he claimed to be in contact with anti-Castro groups in Cuba and stated that he wanted to assassinate Castro. He indicated his intention to return to Cuba immediately. We dropped contact with him at that time and never did have an operational relationship with him. In January 1966 he was reported to be involved in a plan by a Cuban emigre group to infiltrate Cuba for the purpose of assassinating Castro. On 30 May 1966 he was identified by Radio Havana as a member of a commando group killed while trying to land on the island. However, in August 1973 an individual with the same name and year of birth was reportedly involved in narcotics trafficking in Costa Rica. A Cuban exile source stated that he believed subject to be identical with the narcotics trafficker in Costa Rica. There is no further information to substantiate this.

SECRET

SECRET

(4) Armando ROMERO Martinez. There is a 201 file on the individual. His file was opened on 4 December 1963 in response to an indication of interest in him by another USG agency. The relationship with him was terminated following his arrest in Miami in January 1964 for illegal use of narcotics and possession of explosives and automatic weapons.

T. 17 March 1967. A review of files does not confirm that CIA was involved in this incident.

(1) Felix ASENCIO Trejo. There is a 201 file on the individual which indicates that a POA was granted on 4 March 1964 since subject was of interest to us as a possible candidate for paramilitary operations against Cuba. The POA was cancelled on 20 August 1964 with no indication that subject was ever actually used operationally.

(2) Wilfredo MARTINEZ Diaz. We have no positively identifiable information on this individual.

(3) Lazaro Gustavo ARECES Alvarez. There is a 201 file on the individual which indicates that a POA was granted 7 July 1964 for intended use as a seaman aboard a CIA vessel involved in maritime operations. The POA was cancelled 8 September 1964 with the indication that the subject was not hired.

U. 1971. There is nothing in files reviewed to indicate that we had any contact with the subject mentioned in the report or were involved in the alleged incident.

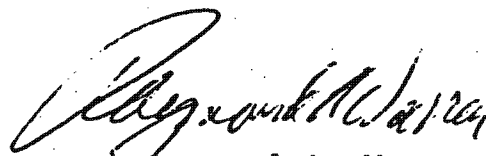

(1) Jesus DOMINGUEZ Benitez. No CIA traces on subject were found.

2. It is noted that the above totals twenty-one separate analytical sections whereas there are actually twenty-four alleged assassination attempts. This is due to the fact that the analyses of the two incidents of 26 July 1961 have been combined since they both occurred on the same day and were allegedly executed by the same group. The treatment of the alleged June 1965 poisoning attempt is part of the analysis of the mid 1964 incident because the alleged perpetrator is related to the group described therein. The incident described in Castro's report as mid 1965 has been combined with the analysis of the 1966 incident since both were allegedly carried out by the same group.

SECRET

SECRET

3. In summary, of the twenty-four incidents described in Castro's report, the files reviewed indicate that CIA had no involvement in fifteen of the cases; i.e., never had any contact with the individuals mentioned or was not in contact with them at the time of the alleged incidents. In the remaining nine cases, CIA had operational relationships with some of the individuals mentioned but not for the purpose of assassination. It is noted that one case is currently being reviewed by a SSC staff member for selection of documents to be sanitized. This case (Rolando CUBELA Secades) was not reviewed in connection with this memorandum. Of the twenty-three cases reviewed, nothing has been found to substantiate the charges that CIA directed its agents to assassinate Castro.
