## MEMORANDUM FOR THE RECORD

SUBJECT: Telecon with Senate Select Committee Staff

1. Mr. Dan Dwyer contacted the undersigned telephonically and referred to comments made by Messrs. Rocca and Hartman regarding the Garrison investigation. According to these two gentlemen, there was an individual within the CI Staff who prepared weekly summaries of the Garrison investigation. Mr. Dwyer asked if I knew who this person might be. I advised that as I had previously stated to him I was unaware of any such summaries being prepared nor did I know who might have prepared them. Mr. Dwyer then went on to say that while he was not interested in reviewing the Garrison 201 itself, he wished to know if there was a machine run on the file available for his perusal when he next came to Headquarters building. I advised that I was unaware of the existence of the 201 and if one existed I had no knowledge to whom it might be charged or what its contents were. Regarding a machine run I simply did not know whether one was available assuming there was a 201. Mr. Dwyer asked if I could check into the machine run and I assured him I would.

2. In response to Mr. Dwyer's query regarding a G-135A check, I told him that I had reviewed the files and located such an INS request dated 5 December 1961 and not 13 December 1961 as he had indicated. Moreover the document in question was in the Office of Security file on Oswald which he, Dan Dwyer, had previously reviewed. Mr. Dwyer commented that he may have missed it. However the 13 December 1961 date was the Agency

reply to INS. Regrettably INS is firmly abiding by the Third Agency Rule and has refused to show the responses to the Senate investigators. I suggested that I would double check the files to see if we have a copy of the response to INS. If we do not then I suggest that Mr. Dwyer ask INS to burn a copy of the document in question and refer it to us. Once received we will then make it available to the Select Committee for review.

3. The above apparently satisfied Mr. Dwyer who said he would check with the undersigned regarding the location of the document in Agency files and if we could not locate the document he would follow the procedure suggested.

4. Based on above the undersigned checked with Mr. Mayo of CI Staff regarding the existence of a 201 on Garrison. Mr. Mayo advised on 5 December that a 201 did indeed exist which contained two documents and three cross references and that the remainder of material associated with the Garrison investigation was in the 100-300-017 file charged to C/CI/R&A. Efforts are currently underway by Mr. Mayo to locate the 100-300-017 file.
