3. The article does not make clear whether or not NAGELL is back in Germany at the moment, nor do we have any information regarding his present whereabouts, other than the statement in the article that he is probably now in the United States. The Public Safety Officer/USBER advises us, however, that subsequent to his release from prison in East Germany in October 1968 he again visited West Berlin and contacted the Public Safety Office where he complained about not being able to locate his children.
