Mr. David G. Marwell
Executive Director
Assassination Records
Review Board
600 E Street, NW
Washington, DC 20530

Dear David:

This is to acknowledge your letter of 7 November 1995 to Director of Central Intelligence Deutch describing the Assassination Records Review Board's recent formal determinations with respect to CIA records.

The appropriate Agency components have again reviewed the 198 documents which the Board has decided to release, either fully or with some information postponed. With one potential exception, the Agency does not plan to appeal to the President for additional postponements with respect to the documents listed in your letter. The potential exception is document no. 104-10017-10015. As we discussed, the Board, because of a technical error on our part, made a determination on this document without having full information available. We plan to withhold judgement on this document pending further review by the Board.

We understand that further review will be needed this month to determine if additional names in a number of the documents can be released. We would be pleased to discuss with the Board and your staff any issues that may arise with regard to declassifying and releasing CIA-originated information.

Sincerely,

John F. Pereira
