MEMORANDUM FOR: Executive Director

VIA: Director, Center for the Study
of Intelligence

FROM: John F. Pereira
Chief, Historical Review Group

SUBJECT: Courtesy Visit of JFK Assassination
Records Review Board, 16 October 1996

REFERENCE: Memo for DCI fr C/HRG, dtd 13 June 96,
Same Subject

(U) This memorandum provides background information for a meeting between you and the JFK Assassination Records Review Board (ARRB), which is scheduled for 16 October 1996 in your office between 9:00 and 10:00 a.m. The meeting was requested by ARRB Chairman, John Tunheim as a courtesy call.

(U) Background: Mr. Tunheim, recently appointed a federal judge in Minnesota, asked that he and the other four Board members have an opportunity to provide you with a brief description of the Board's purpose and activities. The Board's Executive Director, David Marwell, and General Counsel, Jeremy Gunn will also participate. The ARRB members were appointed by President Clinton in 1993 as required by statute. Their principal responsibility is to ensure public disclosure of all government records related to the assassination of President Kennedy.

(FOUO) Topics the Board May Discuss: The Board probably will discuss their concern about whether they will be able to complete their work by the congressionally-imposed deadline of October 1997. This concern relates to the very time-consuming process that the ARRB and its 30-person staff is obliged to use in reviewing all of the thousands of relevant documents that are redacted, which for CIA comprise the bulk of our documents.

(FOUO) The Board may also seek your personal commitment to continue the Agency's dedication of resources--people and computer capability--to the review of JFK documents. CIA has worked closely with the Board and its staff from the beginning.

SECRET

SUBJECT: Courtesy Visit of JFK Assassination
Records Review Board, 16 October 1996

We have succeeded thus far in working out cooperative arrangements for resolving differences of opinion as to what information can be released to the public and what should be withheld because of sensitivities.

(U) The Board may also express interest in gaining access to records that are not part of the JFK records (the sequestered collection), but which the Board regards as possibly containing useful background information or leads for further inquiry. We have released some 227,000 pages of relevant Agency records thus far and are continuing to collaborate with the Board to identify additional information that can be released.

(U) Suggested Talking Points: You may want to emphasize the Agency's commitment to continuing the very positive relationship with the Board, including making people and computer expertise available to process relevant documents.

(S) You may want to assure the Board that CIA is determined to give the Board and designated staff full access to all assassination records, as required by the JFK statute. At the same time, it would be helpful to stress that there are certain categories of sensitive information that require continued protection and should not be released. Among the types of information contained in the JFK records that we need to protect are:

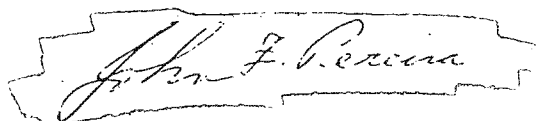

- Identities of agents and CIA officers who retired under cover.
- The Agency's relationships with liaison services, and information received from foreign governments.
- A specific example in this category is the Agency's current request to the Board to protect the liaison relationship with [redacted], and to withhold documents received from [redacted]
- Need to protect non-official cover.
- The Board is planning at its 15-16 October meeting to review documents that identify companies that provided commercial cover. We are arranging to have the DO brief the Board on the potential damage to the non-official cover program and companies involved if such cover is compromised.

- Locations of certain stations and facilities.

-- In this latter connection, the Board is expected to consider at its 15-16 October meeting our request that the [redacted] not be disclosed as a CIA facility.

MEMORANDUM FOR: Director of Central Intelligence

VIA: Deputy Director of Central Intelligence
Executive Director
Director, Center for the Study of
Intelligence

FROM: John F. Pereira
Chief, Historical Review Group

SUBJECT: Request of JFK Assassination Records
Review Board for Courtesy Visit with DCI

1. Action Requested: Paragraph 4 below contains a recommendation for your approval. The Chairman of the JFK Assassination Records Review Board (ARRB), John Tunheim, has requested that you meet with him and the other four Board members at Headquarters Building some time in the next several months. He asks that the meeting be arranged to coincide with one of their monthly sessions, which are held in Washington. (The schedule of their meetings is attached.) The Board's Executive Director, David Marwell, would also participate.

2. Background: Mr. Tunheim, recently appointed a federal judge in Minnesota, would like to provide you with a brief description of the Board's purpose and activities. The Board has paid similar visits to the FBI, where they met with Director Freeh, and to NSA and the Secret Service. The ARRB members were appointed by President Clinton in 1993 as required by statute. Their principal responsibility is to ensure public disclosure of government records related to the assassination of President Kennedy. The statute grants the Board full access to all documents that are related to either the assassination or past investigations into the assassination.

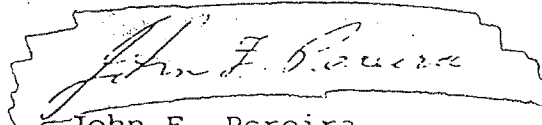

3. CIA has worked closely with the Board and its staff from the beginning. The Board's Executive Director and we have worked out cooperative arrangements for resolving differences of opinion as to what information can be released to the public and what should be withheld because of sensitivities. We have released approximately 227,000 pages of relevant Agency records

Education

Ph.D., George Washington University, 1972

M.A., University of Oklahoma, 1956

B.A., University of Oklahoma, 1954

DAVID G. MARWELL

Biographical Information

On July 1, 1994, the Berlin Document Center (BDC) was transferred to the German Federal Archives (Bundesarchiv) marking the end of nearly 48 years of American control of this unique organization. With an estimated 25 million Nazi-era personnel-related files, the BDC was once a crucial source of evidence for the Nuremberg Trials and is today an incalculably important source for the study of the Third Reich. The transfer also marked the end of David Marwell's tenure as Director of the BDC.

A well-trained scholar with a PH.D. in History, Marwell came to Berlin in 1988 from the Office of Special Investigations (OSI), U.S. Department of Justice where he held the position of Chief of Investigative Research. At OSI, he was involved in researching and preparing cases against accused Nazi war criminals residing in the United States. In addition, he was selected to participate in the Klaus Barbie Investigation (1983) and played a major role in the Josef Mengele investigation (1985), both of which received international attention.

In connection with the Joseph Mengele and Klaus Barbie investigations, Marwell was in charge of assembling all relevant documentary evidence relating to any possible connection between these individuals and U.S. institutions or personnel. The investigations were two of the most unusual ever undertaken and through them he gained significant experiences in the identifying and locating documentary resources. The former Director of OSI, Allan A. Ryan, Jr., in his book *Quiet Neighbors: Prosecuting Nazi War Criminals in America*, described Marwell as "an experienced and careful historian who could find documents in archives when no one else could."

When Marwell arrived at the Document Center, the institution had been rocked by a scandal involving a significant theft of documents. The resulting focus on the Center revealed that it had been neglected in many areas for many years and suffered from an outmoded administrative structure, a disaffected and undertrained staff and a lack of professional guidance. It was Marwell's job to bring the Center up to standard and prepare it for turnover to the German government.

The challenges facing Marwell were not only to manage a complex institution (with an annual budget of eight million deutschmarks) and repair past deficiencies, but also to define a future for an institution in transition. He prepared a "five year plan" for the BDC that set five goals, developed a corresponding program to meet each goal, and designed a system to monitor the progress. In achieving all of the goals, Marwell

- Introduced computer technology (there was not a single computer at the BDC when he arrived) and developed a sophisticated, integrated information retrieval system that has been described as a model for archive administration;
- Created a fully professional document conservation and restoration program;
- Developed a staff (50 Germans and 20 Americans) to manage the BDC's operations.
