

27 October 1997

## MEMORANDUM FOR THE RECORD

FROM:

[REDACTED]  
Chief, Information Management Branch  
Office of Personnel Security

SUBJECT: OSWALD, LEE HARVEY  
AIN: 0351164

1. The Office of Personnel Security was tasked on 31 January 1997 by the Historical Review Group/Center for the Study of Intelligence (HRG/CSI), via the Directorate of Administration/Information Review Office, with researching pre-assassination files on Lee Harvey Oswald. The tasking was generated by the John F. Kennedy Board's desire to review and declassify relevant material. The results of this review were forwarded to the HRG/CSI on 27 February 1997.

2. During the Information Management Branch's (IMB) research in response to the above tasking it was noted that Volume V of the Oswald files was not on the shelf where Volumes I-IV and VI-VII were located. A search of the entire area where the volumes had been maintained failed to locate Volume V. The IMB Files Section was subsequently charged with conducting an all out search for the missing volume. The search failed to find Volume V.

3. In July 1997, the Oswald files were reviewed page by page prior to being turned over to HRG/CSI and another attempt was made to locate Volume V or to locate persons who might know what happened to it. Volume V was not located nor were any persons located who were knowledgeable of its status.

4. During the complete review of the Oswald files no time gap was apparent and no one was located who could recall ever seeing Volume V. This would suggest that either Volume V had been consolidated into other volumes or that Volume V never existed, but that a numbering error resulted in what should have been Volume V being labeled as Volume VI. The use of Roman numerals on the cover of the volumes might have caused this error to occur.
