10 August 1970

C/CI/R&A
Mr. Donovan E. Pratt

Mr. Edward Katliski

INFO

Mrs. [redacted] of TSD just told me in the course of a visit that Herman E. KIMSEY of (BE)VISION fame, a former TSD²-nick called her on the phone and tried to get her to have lunch with him, so he could get her to analyse the handwriting of some homosexuals who were the "real murders of Martin Luther King". KIMSEY gives out that he is working to exonerate RAY for this peccadillo.

Mrs. [redacted] said she avoided contact and will report this to Mr. [redacted] TSD Security Officer. (previously she told [redacted] but he told her to forget it and evade KIMSEY. I suggested she better tell [redacted] as KIMSEY is capable of any action involving her or the Agency.)

KIMSEY also told Mrs. [redacted] that this side-kick R. Cleve BAKSTER has found a way to use a lie detector on plants even to detect people who murder other plants in the presence of a plant that serves as a witness.... Nothing succeeds like excess....
