✓ 11. (Unclassified - RSG) LIAISON Received a call from a former Agency staff officer to establish bona fides of House Select Committee on Assassinations researcher Dan Hardway who would call the former Agency officer to schedule an interview.

✓ 12. ( Secret - RSG) LIAISON Took a call from Mickey Goldsmith, on the staff of the House Select Committee on Assassinations, who requested that we make available to a former Agency employee a list of SE case officers assigned to [redacted] from 1960-1964. The former Agency employee was employed at (the Station) during that time and is now claiming that Lee Harvey Oswald was a (Station) asset. This request was denied because the information was classified and <sup>1,2,3</sup> could not be released to the former Agency employee. Goldsmith indicated he would not press the issue.

✓ 13. (Unclassified - RSG) LIAISON Bob Genzman, House Select Committee on Assassinations staff, called to reschedule the briefing of DDO name trace system to 7 April at 9:00 a.m. Gary Cornwell, of the Committee staff, will also observe.

14. (Unclassified - ME) FOIA/LIAISON Called Representative Charles Whalen, Jr.'s (R., Ohio) office, and spoke with Ms. Randy Hentz about the Congressman's letter of 14 March on behalf of Mr. Gene W. King and his claim that the Agency had advised him that CIA had no files on the Veterans Coalition, of which he is National Director, or on himself. I explained to Ms. Hentz that I had checked with the appropriate office concerned with such requests and there is no record of a request from either Mr. King or the Veterans Coalition. She asked me to send her the name and address of the individual to whom Mr. King could write and I passed same to her.

15. (Secret - PLC) LIAISON Together with Gary Chase, I met with Don Sanders, Special Counsel, Senate Select Committee on Ethics, and discussed in general the support the Agency will provide to the Committee in their investigation to determine if the leaks (Panama and the Oil study case) resulted from a source within the Senate Select Committee on Intelligence. Sanders made clear that in his capacity as Special Counsel, he is completely separate from the Senate Select Committee on Intelligence though he also holds a staff position on the Subcommittee on Investigations of the Select Committee on Intelligence. Any information provided by CIA concerning the investigation should be sent directly to him. He understands that procedures will have to be worked out as we go along and he was agreeable to a Memorandum of Understanding formalizing the arrangements. I also delivered the damage assessments by CIA and NSA on the leak of the oil study in accordance with Sanders' request.
