susject: Moss, Edward K

1. NZ-India Desk called to say they can find no trace in their file that they ever nade use of the subject, although they had made a request to approach him in March 1959 when he was public relations adviser to the Indian Massay. NZ has no objection to our use of the subject, as long as he is no longer advisor to the Indian Embassy.

2. I have asked for the 201 file on Moss, to see is there is any record of NE use of the subject. If not, I will prepare a draft for NE concurrence, stating they have no objection to our proposed use of the subject.
