1. Carlos John WILSON, an Englishman by birth but reported to be a Spanish citizen, was previously reported, among other activities, as posing as an ex-RAF pilot and veteran of World War II. His activities drew the attention of the British Embassy in Santiago and resulted in WILSON's being twice warned by the Chilean authorities to cease his masquerading or leave the country. According to source, WILSON has not taken the warnings very seriously, because he still openly talks of his exploits as an RAF pilot over Germany. [He also claims that, at the close of the war, he worked on a special mission for the British Government in Germany, Egypt and Turkey. He claimed in addition to have fought with the Spanish Republican forces against FRANCO. He states that he arrived in Santiago about five years ago.
2. WILSON is violently anti-U/S and constantly condemns Yankee imperialism, blaming the United States for the ills of the world as well as for his own personal set backs. WILSON states that England and France will eventually get together with Soviet Russia to form a pact aimed at the complete destruction of the United States. He claims to be an authority on the Balkans, and a great supporter of TITO whom he states is the only person capable of maintaining peace in that part of the world. TITO, WILSON states, will in time line up the entire Balkan area with England and France to assist Russia in crushing the United States.
3. WILSON evinces a great deal of interest in the Yugoslav Colony in Santiago and recently dropped in at the Club Ruso on a large celebration given by the Serbo Orthodox Society. He became quite drunk and so abusive of the U. S. that he was told to quiet down or leave. He confided to source on this occasion that he was in an intelligence service, implying that it was the British Intelligence. WILSON has an office on Calle Agustinas 1111, Office 418, telephone 83888, Casilla 863. On the door to this office appears the following: "CINCRE, Commercial Information". It is said that his office is usually full of Chileans, all of whom appear to be rabid Ibañistas and that the talk centers around the time when IBAÑEZ will take office and throw out the U. S. imperialists. WILSON's principal business consists in trading in copper, lead and sulfur, a business which he states is impeded by United States commercial espionage. According to WILSON, all requests for imports and exports in Chile clear through the Yankee Gestapo Headquarters on the sixth floor of the Carrera Hotel. However, WILSON now has a secret deal in Antofagasta wherein he plans to ship 15,000 tons of sulfur to Holland.
