1. An increasing number of Cuban exiles are now arriving in Venezuela as safeconducts are slowly issued by the Cuban Government for asylum in the various foreign embassies in Havana who took refuge during April 1961. Among these exiles are some who took an active part in different underground and guerrilla groups opposing the Castro government. Some of them are now trying to get visas so that they can report about their clandestine activities to their superiors in the Cuban groups in Miami. CLARK-1 has provided the Station with the names of the following persons in this category who he has met in the course of his activities in trying to help re-locate the Cuban exiles now arriving in the country.

a. Roger Antonio AGUILAR Sarta - born 19 November 1907 Member MRR who intends to report to Evario DUGUE. (See also WVCA-9331)

b. Oscar OCTECARAY Carrera - born 4 April 1924. Member MRR who intends to report to Evario DUGUE together with GERALD.

c. Ernestino Cecilio "ARMY" Sarta - born 11 November 1924. Member MRR who was "responsible militarily" for the MRR in the province of Matanzas who intends to report to Dr. Oscar GALARAS.

d. Luis Bernabe GOMEZ Dominguez - born 22 October 1936 Member of the Directorio Estudiantil.

e. Guillermo Auralio GOMEZ Dominguez - born 29 February 1940. Member of the Directorio Estudiantil.

f. Ernesto GARCIA Carayat - born 25 March 1941. Member of the Salida Revolucionaria who used the name Juan Santista Sanchez during underground activities.

2. Since the local consulates no longer normally issues tourist visas to any Cuban exiles but insists on their applying for immigration visas, which require a 6 weeks waiting time at a minimum, the Station would appreciate any action Headquarters may wish to take through liaison to authorize the local consulates to issue tourist visas to the above named persons.
