<p>Through ⁰²AVAD assets we have thoroughly explored the possibility of utilizing a non-Uruguayan (AMICE-14) in an operational capacity in the country's only University. We regret to say that the consensus is that such an individual would be so strongly suspect by the Marxist elements who control most phases of university life that he would be hamstrung operationally both in KUTUBE and KU-OLF activities. Therefore, (Montevideo) Station has no interest in utilizing Subject.</p> <p>16-24</p>
