MEMORANDUM FOR: Special Agent in Charge
Washington Field Office

SUBJECT: ~~GARCIA, Ernesto Guzman~~
749 651 E SD/3 07

1. You are requested as Office of Origin to establish a FOXTROT facility in the name of the captioned Subject in the Miami, Florida area.

2. The facility is needed to support documentation in that name and the only possible, but unlikely, inquiry about the Subject would be made by the U. S. Immigration and Naturalization Service. In the event that such an inquiry be made, the householder should state that the Subject is an [redacted] he has been residing at the facility since about September 1964 and that he is a writer who travels and is away on business from time to time. In that connection, you should arrange with the householder to be advised of any inquiries concerning the Subject and you should then notify Headquarters promptly. Also, it is an unlikely possibility that the Immigration and Naturalization Service may direct mail to the Subject at the facility.

3. The requestor has asked for this facility by 10 December 1964. It will be needed for an indefinite period of time and when circumstances permit Headquarters will notify you to cancel.

4. A written report concerning your handling of this matter should be forwarded to Headquarters. In accordance with Section V, K, 7, page 47b of the Agent's Manual, your report should include available biographic data on the individual providing the live address. It is desired that appropriate police and credit checks be made on this individual where such checks will not prove embarrassing to the individual or to your Office.

Backstopped Address for ANMUG/1 Alias Documentation

ACTION: See Below

REF: WAVE 4787 (IN 23105)

1. While it is possible for Headquarters to obtain a fully backstopped address in ZENETAL for ANMUG/1 alias documentation, it is believed that such an address in JMWAVE would be more advantageous for the following reasons:

A. It has been the experience in similar cases that certain consulates will NOT issue visas to their countries to persons applying for them in one city and holding passports and I-94 forms showing permanent or even temporary addresses in another city.

B. The fact that subject resides in the WAVE area should pose no particular problem in his being backstopped in alias in the same city. For example, ANMUG/1 resided in true name in the ZENETAL area and at the same time was backstopped in alias in the same area.

2. Please advise.
