NOTE CONTINUED:

*CIA has now provided data indicating head of MIRR has indicated organization has plans for operation that will involve the U.S. in "serious way." MIRR needs money to finance this operation and boat which is capable of high speeds to carry out the plan. MIRR head also spoke of planned air attack on presidential palace in Havana. Plane reportedly will take off from British territory and after attack will land at Key West, Florida. If U.S. authorities attempt to take legal action, MIRR reportedly will publicly announce that attack had been directed and financed by U.S. Government. In view of the use of British territory, we are checking with CIA headquarters by liaison to determine if this data has been furnished. Above instructions are in line with our policy in handling matters of this type.
