OCCURRENCE:

Due to reports of popular unrest, political strife, and economic disruptions inside Cuba, it was suggested that the Special Group Augmented consider the value of having an SNIE on Cuba made in the immediate future. The CIA has agreed as a matter of priority to reach a stage in the interrogation of Pedro Roig where he can be surfaced to make public charges of Cuban Communist operations against Latin American nations. For operational effectiveness, the CIA has selected a new area in Cuba for its initial radio broadcasts from a submarine for "Voice of Cuba." The Navy states that the new area is feasible and State has concurred in the theme and content of the broadcast. They will take place around the end of the month. No proposals for actions by the Department of State have been submitted since the appointment of State's special representative, Mr. Hurwitch. They are expected on June 22, 1962.

DATES:

CATEGORIES:

MONGOOSE

OCCURRENCE: It was agreed that Harvey was to work towards reaching a stage in the interrogation of Pedro Roig, the Cuban economic official who defected to Mexico, where he can be surfaced to make public charges of Cuban Communist operations against Latin American nations. Harvey was to generate a story from Cuban refugee sources that the original Cardenas incident consisted of a demonstration concerning the shortage of food. This was to cause ridicule of the Communist regime's use of MIGs, tanks and troops against the unarmed people of Cardenas. "The Cuban source to story need not await your determination of the true cause of the Cardenas demonstration."
