[R] - ITEM IS RESTRICTED
MEMORANDUM

TO: Bill Miller
FROM: Dan Dwyer
DATE: July 24, 1975
SUBJECT: Inventory of Materials Relating to Assassinations

During the Committee's assassination inquiry we have worked with the following kinds of materials: materials that the Committee already had received from the Agencies before the Rockefeller materials; materials given to the Committee by the Rockefeller Commission; three shipments of materials from the White House received after the Rockefeller Commission materials; materials that our staff acquired from Presidential libraries; and materials developed from SSC Intelligence work which include testimony, interview summaries, chronologies, and notes relating to assassinations. These materials are enumerated below. An asterisk in the left margin indicates that we have an itemized index of these materials. This memo and the appropriate indexes will be filed in IX-C-1-S2, and with the Registry Clerk.

Most of the materials in this inventory were digested. An index card file of these digests is in the Research Center. These cards (approximately 8000) are filed chronologically by each assassination case study (e.g. Diem, Lumumba, etc.) and also by names of persons (approximately 300) related to the case studies (e.g. Bundy, Bissell, Harvey, etc.).
